Campaign content diagnostics

Overall, Campaign content was well-received, coming across as appealing, noticeable, and easy to comprehend.

After exposure

Like the communications a little / a lot

Consider the communications **fairly / very noticeable**

Find the communications **visually appealing**

Find the communications **fairly / very easy to understand**

"Like the animation. Simple and effective."

"It was interesting to consider the connection between humans and AI"

"Highlights the difference between knowledge and information"

Base: All respondents - Post wave (200)

Q24A - If you had seen these pop up on social media, to what extent do you feel they would have been noticeable?

Q26 - How much do you like the communications?

Q27 - How easy are these communications to understand?

Campaign content diagnostics

Despite not having a clear call to action asking people to contribute or support Wikipedia and the Foundation, content does prompt a good number of people to consider editing and donating.

After exposure

How, if at all, do these communications affect how likely you are to edit Wikipedia / donate to Wikipedia / WMF?

Effect on editing

30%

more likely to edit
after seeing the
communications

Effect on donating

30%

more likely to
donate after seeing
the communications
