Welcome!

Wiki Loves Monuments is a global annual
federated low-barrier photo competition
focused on freely documenting built cultural
heritage (or, monuments).

**What we
achieved**

Since 2010

- Collected information about 1,455,127 monuments from 76 national competitions
- Welcomed 46,412 new volunteers
- Become a global community of people who are doing amazing things for capturing the world's monuments knowledge on Wikimedia projects.

We have a formula that works!

So, are we done?

- Only 38% of monuments listed have at least one photo
- One photo is not enough for most monuments
- We are missing monuments from more than 100 countries
- We can make the knowledge we're collecting more accessible!

Next

- Happy announcement(s)
- Status update on the initiative(s)
