Dear Mr. Sloane:

Enclosed is a copy of Narayana's and my paper.
It has been submitted to the Cahiers du Bureau Universitaire
de Recherche Operationnelle.

This copy is sent to you because you were referenced.

Only your sequence collection enabled me to find
Narayana once I had done the basic part of this work. Keep up
your efforts even for us "recreationalists."

Sincerely,

B. E. Wynne

Dear Mr. Wynne:

Thank you very much for your letter of August 12 and the enclosed paper by yourself and T. V. Narayana. It's always nice to hear that the Handbook has been useful. The enclosed paper by Mallows and me is another nice example of a coincidence of sequences.

This month is an extremely busy one for me, but I will read your paper before too long!

Yours sincerely,

Dear Neil:

In your July 25 letter you requested an offprint of papers involving integer sequences. In particular, you sought one of "Tournament Configuration, Weighted Voting, and Partitioned Catalans" by myself and T. V. Narayana.

I do not have offprints of that paper as published in France. I have enclosed a Xerox of the final manuscript. If the offprint itself is necessary for your purposes, I expect one could be obtained from Narayana in Canada.

Let me know when your second edition of the handbook comes out. I am delighted that there is to be one.

Sincerely,

Bayard E. Wynne

Dear Sir:

Several years ago you asked me for a copy of the enclosed article. I believe you had come across a reference to it as a French publication. At that time I could not lay my hands on it. Having just stumbled into a copy, I am sending it to you for whatever use you choose.

Sincerely,

Bayard E. Wynne
