OPPORTUNITIES
for 2024**

SPIE's optics.org is the leading online resource for professionals using photonics based technologies, applications and for the diverse markets they serve.

After a period of unpredictable change optics.org continues to recognise the strategic value of staying digitally connected for the generation and retention of highly engaged customers.

It's also no surprise that businesses are seeking a diverse choice of digital marketing solutions and optics.org has created a comprehensive range of marketing solutions and opportunities that work exclusively in combination with both SPIE Photonics Focus and SPIE's Exhibition and Conference programme.

Work together with optics.org to generate marketing opportunities that will strongly and impressively showcase products, drive lead generation and facilitate peer networking that will empower your brands and build a strong presence alongside your key competitors.

Please get in touch and we can help you create a targeted customer experience to put your brand and products in front of key decision makers who are also optics.org users and potential new customers looking to buy your products and services.

As we move into 2023 there has never been a stronger moment to drive your digital marketing strategies to put your company and products in front of key decision makers who are optics.org users.

If you don't have one then please talk to us. We can provide an enriched, targeted customer experience which enables users to interact directly with industry, as well as each other whilst supporting you in reaching thousands of potential new customers looking to buy your products and services.

"Our experienced team of journalists makes optics.org stand out from the crowd with its coverage of the photonics industry. Focused on the market trends and business developments that shape this high-tech sector, we bring you the stories behind the headlines – from market reports, mergers & acquisitions and CEO interviews, to industry events, start-up funding and patent disputes.

Whether it's microscopy or solar energy, materials processing or infrared countermeasures, what sets optics.org apart is its

attention to the commercial side of these technology-driven industries, with an emphasis on straight talking and market insight.

Keep on top of the fast-moving sectors that are served by photonics: get our weekly newsletter, visit the site for daily updates or follow us on Twitter."

Matthew Peach
 Editor-in-Chief, optics.org

Editorial submissions

Got an announcement to make? Send me your ideas.

New product announcements

Similarly, I am keen to receive press releases detailing new products. Each one should be around 250 words and describe your product's specifications and applications. You should supply a high resolution JPEG, or flash file of your product. There is no charge but inclusion of your product cannot be guaranteed.

Registered users can also log in to post their press and product releases.

3 simple stages

Take a look at optics.org's ad bundle opportunities – designed to deliver simple and cost-effective marketing programmes.

We've developed packages that deliver year-long promotion to our 30,000+ monthly digital users and 20,000+ weekly eNewsletter subscribers. We've also included priority listings in our 3000-company Buyers Guide and print promotion in our targeted Product Focus magazines.

There is currently huge demand for promotional services around key events throughout the year. Securing your bundle package will ensure your company and products have the visibility you need when you need it!

If you think you can get a better package with anyone else talk to us and we'll see what we can do!

See below for new Buyers Guide and bundle rates:

Stage 1

Choose your buyers guide listing

Free – Basic entry, no company logo, alphabetical listing.

Corporate Partner – 12 months priority Listing above basic listings, company logo promoted in the optics.org buyers guide, enhanced Company listing, company logo promoted on all editorial pages of optics.org, 1x 125x125 banner promotion on optics.org (duration 1 month), company logo on all product announcements.

Investment \$850/€850/£745 per annum

- Video Interview with editor-in-chief Matt Peach

Total investment \$9455/€9455/£8295 per annum

* eNewsletter sponsorship excludes the week before, during and after Photonics West and Laser World of Photonics, Munich.

As part of SPIE, there are many international exhibition, sponsorship, and advertising opportunities associated with SPIE events and SPIE Photonics Focus. Let's talk about how we can create a multi-channel marketing campaign together!

Stage 3

Customise your package

Our bundle packages in Stage 2 offer the very best rates for our combined services, however we understand that these packages might not deliver the exact solution that your marketing strategy needs.

If that's the case talk to the sales team about creating a bespoke package that meets your marketing need and advertising budget.

All services can be purchased individually or in multiples, so tell us what you need and we'll create a package to suit.

- **Cross promotion in the SPIE members magazine – Photonics Focus**
- **Combine your online and digital marketing with a discount package in the SPIE members magazine Photonics Focus.**
- **Contact the optics.org sales team to reserve your marketing package and secure your 10% discount on all printed ad placements. – Include thumbnail of Photonics Focus**

Video Interviews and Product Demos

We are thrilled to announce that **optics.org**, the foremost online resource for photonics professionals, is the official exhibition provider for video interviews and product demos at **Photonics West 2024**. This is your chance to shine and captivate the event's attendees with the power of exhibition videos.

Book your video demo/interview now to secure your prime timeslot and effectively showcase your latest products, applications, and capabilities to the **Photonics West** audience.

Why Choose optics.org for your Exhibition Videos?

optics.org is owned and published by **SPIE**!

We're providing all exhibitors at **Photonics West** with the perfect opportunity to elevate your brand and take centre stage with captivating event videos that highlight your company's unique offerings.

Here's how exhibition videos can benefit you:

- 1. Highlight Key Moments:** Showcase product launches, live demos, and customer testimonials to reinforce your company's value.
- 2. Extend Your Reach Beyond the Show:** Amplify your trade show presence by sharing event videos on social media, reaching a broader audience.
- 3. Create Timeless Content:** Craft content that can be repurposed for various marketing campaigns, ensuring lasting value.
- 4. Stay Competitive:** Leverage event video promotions to outshine rivals at trade shows.

Our Show Package includes:

- A professionally recorded 3-minute video at your booth by our expert team.
- All post-production and editing (x2 edits).
- A completed MP4 provided for your own marketing purposes.
- Proactive promotion post-event on the optics.org and SPIE websites.
- Inclusion in the post-**Photonics West** wrap-up **optics.org eNewsletter** (sent to over 20,000+ industry professionals and **Photonics West** attendees).
- Promotion through all **optics.org** and **SPIE** media channels.

This exceptional package is available for a total investment of just **\$3500**.

To maximise your visibility before, during, and after **Photonics West**, consider combining your video with targeted online promotions on optics.org and in the **ONLY** official daily newspaper for **Photonics West**.

Remember, **SPIE** doesn't sell or rent attendee names, so the surefire way to guarantee exposure to your future business partners is through **SPIE** media.

Don't miss this opportunity to make a lasting impact.

Contact our dedicated sales team today to secure your media package:

Ten products - 10 weeks - \$585/€585/£515

new from optics.org...

ad.opt *the power of re-targeting*

Why re-targeting

Whether you are selling products, generating leads or building your brand, re-targeted advertising provides industry specific, sustained exposure to one of the most valuable audiences you can reach.

How does it work?

Once individuals have left the optics.org website, they will continue to see your digital media throughout their customer journey. This significantly expands your reach and continues to refresh your brand, products and services.

Re-targeting works so well because it only serves your advertising to the audience you are trying to reach, which can also include their geographic location. Most importantly this allows you to redirect them to specific areas of your website whilst you have their attention and interest. Simply put, you can set your parameters, and the work is done for you.

Quality targeting

Your digital media campaigns will be served to an audience who are not only familiar with your products and services, but statistically have an actual need for them.

- Click-through rates are 10x those of standard display ads.
- Has been demonstrated to increase business name searches by over 1000%.
- 60% of viewers notice and consider purchasing products from retargeting ads
- Retargeted prospects are 43% more likely to convert than those served standard display ads.

Choose both your audience and the duration of your digital campaign from a number of packages which can be discussed in detail with Rob Fisher, Head of Sales and Marketing – see *contact details below*.

Quantifiable results

Re-targeting activity is 100% trackable and linked to reporting dashboards that can be accessed by you and your stakeholders.

As soon as your campaign goes live, it has a unique report line that can be shared with all stakeholders and gives real time insight into how the campaign is progressing which includes metrics for impressions, clicks and geographical locations of ads served.

ad.opt *the power of re-targeting*

Homepage Banners

The optics.org homepage is the gateway to the resources and news available with 1000s of industry professionals visiting it every month. Taking advantage of a Homepage Leader or Homepage Skyscraper ensures exclusive positioning in front of the optics.org audience.

1. Homepage Leader

The Homepage Leader banner offers premium brand visibility to the photonics industry's largest online audience. A larger banner space ensures maximum visibility on the page supporting your brand and emphasizing your company's dominance in the photonics market.

- Duration 1 month
- Leader banner 728 x 90
- Exclusive banner position (only 4 positions available per month)
- Hyperlink to your web site

Rate:

1 month - \$2080/€2080/£1825

2. Homepage Skyscraper

The Homepage Skyscraper puts your company alongside the premium editorial generated from across optics.org. Eye catching Skyscrapers offer an alternative to standard banner advertising.

- Duration 1 month
- Skyscraper banner size 120 x 600
- Exclusive banner position (only 4 positions available per month)
- Left hand side of home page
- Hyperlink to your website

Rate:

1 month - \$1450/€1450/£1270

3. Homepage Post It

Do just that! Post a product promotion or company message on the homepage so that our audience can see who you are up to.

- Duration 1 month
- Post it size 125 x 125
- Bottom left hand position
- Hyperlink to your website

Rate:

1 month - \$700/€700/£615

Editorial Banners

Over 70% of users visiting optics.org go straight to editorial articles. Make sure your company products and brand are amongst the core of the optics.org audience.

1. Editorial Leader

Editorial banners offer premium visibility across all areas of editorial focus. Highlight your company's products and expertise and brand above the latest news in market growth, business analysis, product applications and R&D.

- Duration 1 month
- Leader banner 728 x 90
- Hyperlink to your web site

Rate:

1 month - \$1950/€1950/£1710

2. Editorial Skyscraper

A high impact banner position along side the latest the latest editorial developments. Highlight your company's products and expertise and brand above the latest news in market growth, business analysis, product applications and R&D.

- Duration 1 month
- Skyscraper banner size 120 x 600
- Right hand side of editorial pages
- Hyperlink to your website

Rate:

1 month - \$1045/€1045/£915

3. Editorial Post It

Outstanding value that offers a targeted promotion of products and brand. Immediately eye catching location and included in all editorial articles.

- Duration 1 month
- Banner size 125 x 125
- Top left hand position
- Hyperlink to your website

Rate:

1 month - \$450/€450/£395

Subscribe now to receive your free optics.org weekly eNewsletter

2024 promises to deliver an overflowing events calendar that will leave little time between shows for additional product promotions, upgrades or new applications. To maximise on the time, money and effort spent around exhibitions and tradeshows, optics.org will be publishing the optics.org product focus a cost effective tradeshow magazine that delivers your product information into the hands of attendees.

If you can't attend a show or just need to give your products a bit of a push then advertise in the **optics.org product focus** magazine. Product Focus is a well-established and recognised source of product news at key shows throughout the year. Actively read by attendees the **optics.org product focus** magazine is a cost effective way to announce latest products and applications to potential buyers.

Distributed at key shows as well as sent digitally to our 20,000+ eNewsletter subscribers. Product Focus is the most direct way to communicate your latest product launches or give existing product lines the exposure they need. Even if you're not exhibiting you can still reach the attendees in the **optics.org product focus** and we'll make sure you secure vital exposure alongside competitors' products.

If you're looking for a cost effective solution that puts your product and brand into the hands of future buyers then there is no better solution than the **optics.org product focus**.

optics.org has been guaranteed high visibility to new products for nearly 25 years with the inclusion of **optics.org product focus** you

can be sure that it will continue to deliver innovative new marketing solutions to support your sales and business growth.

Not covering one of your tradeshows? Let us know and we'll see what we can do to support your marketing activities.

Advertising opportunities

We offer front cover and 1/6 page advertising positions for product promotion as well as 'Sponsored' editorial and paid for content.

See next page for Technical Information and price structure.

Publication Schedule 2024

Show	Dates	Focus	Booking/Copy Deadline	Distribution
SPIE BIOS and Photonics West San Francisco, USA	27 January - 1 February	All light-driven products and technologies	1 December 2023	19,000 copies subscribers to SPIE Photonics Focus magazine + current and past attendees to the BioS and Photonics West exhibs.
DCS (Defense & Commercial Sensing) Orlando, Florida, USA	21 - 25 April	All IR related products and applications	25 March 2024	20,000 digitally + print distribution throughout the event
Optatec Frankfurt, Germany	14 - 16 May	All light-driven products and technologies	8 April 2024	20,000 digitally + print distribution throughout the event
SPIE Optics+Photonics San Diego, USA	18 - 22 August	Nanotechnology and light driven products and technology	19 July 2024	20,000 digitally + print distribution throughout the event
SPIE Photonex (review)	30 Oct - 1 November	Quantum technology, silicon photonics, biomedical imaging and photonics	4 October 2024	20,000 digitally + print distribution throughout the event + 5,000 posted copies to current and past attendees

* Prices and sizes for advertising in the Photonics West Product Focus can be found in the SPIE Photonics West Focus media information.

SPIE OPTIFAB PRODUCT FOCUS 2023

Julie Bentley elected chair

emily Optical Design.

Julie Bentley, who has been elected as the new chair of the SPIE Photonics West Focus, will be leading the team that will be responsible for the production and distribution of the magazine. She will be working closely with the SPIE Photonics West Focus team to ensure that the magazine is of the highest quality and that it is distributed to all relevant stakeholders.

Further appointments

- Alvin Bentley, senior director of the SPIE Photonics West Focus, will be working closely with the SPIE Photonics West Focus team to ensure that the magazine is of the highest quality and that it is distributed to all relevant stakeholders.
- Alvin Bentley, senior director of the SPIE Photonics West Focus, will be working closely with the SPIE Photonics West Focus team to ensure that the magazine is of the highest quality and that it is distributed to all relevant stakeholders.
- Alvin Bentley, senior director of the SPIE Photonics West Focus, will be working closely with the SPIE Photonics West Focus team to ensure that the magazine is of the highest quality and that it is distributed to all relevant stakeholders.

Booking/Copy Deadlines: See Publication Schedule 2024 (page 2)

Size: 180mm (w) x 200mm (h).
Rate: \$2500/€2440/£2120

Size: 86mm (w) x 84mm (h).
Rate: \$650/€635/£550

**Sixth Page Product plus
Star Product* on optics.org**
Rate: \$995/€970/£845

**Star Products deliver homepage promotion and inclusion into the optics.org newsletter for 1 week (Rate card cost \$685/€630/£525).*

Trim: 210mm (w) x 297mm (h).
Bleed: Allow 3mm all sides
Type area: 180mm (w) x 267mm (h).
Rate: \$1950/€1905/£1655

Size: 180mm (w) x 130mm (h).
No bleed.
Rate: \$1250/€1220/£1060

Size: 87mm (w) x 267mm (h).
No bleed.
Rate: \$1250/€1220/£1060

Size: 180mm (w) x 84mm (h).
No bleed.
Rate: \$1050/€1025/£890

Size: 87mm (w) x 130mm (h).
No bleed.
Rate: \$850/€830/£705

Advertising Material

You can e-mail your copy and files to Rob Fisher at rob.fisher@optics.org

Copy should not be more than 85 words (350 words for the front cover ad). Full company details should be provided plus any contact names.

Product photo size: 80mm x 104mm

Photo should be supplied as high-resolution TIFF, JPEG and EPS files. All image files must be 300 dpi minimum at above size and CMYK.

If time allows, your details will be checked by our production team to ensure that the dimensions, format, resolution, colour and fonts are set up correctly for printing, but responsibility for supplying correct files remains with the advertiser.

VAT

All UK advertisers are subject to VAT at 20%.

Terms and conditions

Advertising is accepted only on the basis of our "Conditions of acceptance for advertising".

For more information, contact the sales team or e-mail sales@optics.org

Novel 'few mode' innovation reboots and expands OCT

Professor Caroline Boudoux is casting new light from her photonic lantern for optical coherence tomography.

At Polytechnique Montreal, Caroline Boudoux's lab has developed a new version of a popular medical imaging technology for optical coherence tomography, or OCT, based on an optical fiber device called a photonic lantern. It will have a variety of medical and other applications, which Boudoux will spell out in detail at the BiOS Hot Topics in her January 28 presentation at Photonics West. She works with a particular type of hardware called modality-specific photonic lanterns, which act as (de-)multiplexers of spatial modes in fiber optics. Boudoux said her team, in collaboration with colleague Nicolas Grolleau, has developed a new way to model and manufacture the lantern "with better specifications and using a technique compatible with large-scale manufacturing, to allow rapid translation outside the lab."

Prof. Boudoux says the lantern approach to OCT "lets us create images with more photons, and that improves contrast."

More than meets the eye.

No matter what optical challenge you're facing, chances are Optikos has solved it—or something a lot like it. Whether you need design through manufacturing, products for image quality measurement, or anything in between, we can help.

See what's below the surface at booth #857.

SPIE Photonics West PREVIEW 2024

Future-focused

Global shortages of photonics materials and components, together with the related impact on supply chains, has resulted in a significant increase in the sourcing of new suppliers and business partners to maintain and develop products and services.

Conversely, this arena has also created opportunity and driven innovation; crucial components to carry the photonics market into the next generation.

If growth opportunities identified in the medical, defence and sensing markets are also factored in we see major opportunities to drive business development and showcase products.

Fundamental to business development

Photonics West is an essential industry event, and with conference delegates and exhibition attendees demonstrating a real appetite for returning to in-person attendance, there are great opportunities for face-to-face participation in key conversations and decisions that happen here.

Delivering your marketing messages

By working in close partnership **with optics.org** you will be able to reserve space in the **Photonics West PREVIEW**, the official preview for **Photonics West**, and ensure that your products, marketing message and brand are delivered to conference attendees *ahead of and during the event*. Essentially paving the way for those critical meetings and conversations.

Editorial focus

The **Photonics West PREVIEW** will include essential information on all aspects of the **Photonics West** show. It will provide insight into the **BIOS** and **Quantum West** conferences, as well as hot topics at Photonics West, and a pick of all the networking events taking place over the week. The **Photonics West PREVIEW** enables you to align your company core technologies and products to applications.

Distribution

Photonics West PREVIEW will be sent digitally to over 50,000 industry professionals and past attendees in advance of **Photonics West**. It will also be available at all registration desks and high traffic distribution points throughout the **BIOS** show and **Photonics West** to provide maximum exposure to attendees.

There are no substitutes

If it isn't in the Photonics West PREVIEW – then it isn't official.

Substantial distribution

SPIE. PHOTONICS WEST

It's where buyers come to buy

Industrial R&D, product engineers, and scientists from around the globe come together at Photonics West. In addition to companies, leading government and research organizations also send hundreds of attendees to learn what's new.

Figures based on 2019 attendance.

Benefits of being seen in the SPIE Photonics West PREVIEW 2024

Be a part of the most important gathering of the year

Start your year off right at the leading photonics and laser event.

FEATURED TECHNOLOGIES:

- Lasers and other light sources
- Laser accessories, laser systems
- Cameras and CCD components
- Fiber optic components, equipment, systems
- Optical components
- Communication
- Optical detectors
- High speed imaging and sensing
- Optical materials and substrates
- IR sources and detectors
- Electronic imaging components
- Optical coatings
- Lenses and filters
- Positions and mounts

Planning for over 20,000 attendees in 2024

Photonics West historically attracts over 20,000 international attendees.

We look forward to seeing everyone again in San Francisco for the photonics industry's premier face-to-face, live event.

Expand your revenue and your growth

Reach the qualified audience attracted to this world-class event.

ATTENDEE JOB FUNCTION FROM PREVIOUS YEARS:

Exhibition Promotions

Video Interviews and Product Demos

We are thrilled to announce that **optics.org**, the foremost online resource for photonics professionals, is the official exhibition provider for video interviews and product demos at **Photonics West 2024**. This is your chance to shine and captivate the event's attendees with the power of exhibition videos.

Book your video demo/interview now to secure your prime timeslot and effectively showcase your latest products, applications, and capabilities to the **Photonics West** audience.

Why Choose optics.org for your Exhibition Videos?

optics.org is owned and published by **SPIE**!

We're providing all exhibitors at **Photonics West** with the perfect opportunity to elevate your brand and take centre stage with captivating event videos that highlight your company's unique offerings.

Here's how exhibition videos can benefit you:

- 1. Highlight Key Moments:** Showcase product launches, live demos, and customer testimonials to reinforce your company's value.
- 2. Extend Your Reach Beyond the Show:** Amplify your trade show presence by sharing event videos on social media, reaching a broader audience.
- 3. Create Timeless Content:** Craft content that can be repurposed for various marketing campaigns, ensuring lasting value.
- 4. Stay Competitive:** Leverage event video promotions to outshine rivals at trade shows.

Our Show Package includes:

- A professionally recorded 3-minute video at your booth by our expert team.
- All post-production and editing (x2 edits).
- A completed MP4 provided for your own marketing purposes.
- Proactive promotion post-event on the optics.org and SPIE websites.
- Inclusion in the post-**Photonics West** wrap-up **optics.org eNewsletter** (sent to over 20,000+ industry professionals and **Photonics West** attendees).
- Promotion through all **optics.org** and **SPIE** media channels.

This exceptional package is available for a total investment of just **\$3500**.

To maximise your visibility before, during, and after **Photonics West**, consider combining your video with targeted online promotions on optics.org and in the **ONLY** official daily newspaper for **Photonics West**.

Remember, **SPIE** doesn't sell or rent attendee names, so the surefire way to guarantee exposure to your future business partners is through **SPIE** media.

Don't miss this opportunity to make a lasting impact.

Contact our dedicated sales team today to secure your media package:

San Francisco, California, United States

optics.org AR|VR|MR focus

AR|VR|MR focus delivers unique insight into the photonics technologies that drive this rapidly growing industry. Targeted at optical hardware and software engineers, managers and industry professionals. AR|VR|MR focus puts your products alongside the latest business news, market trends and product launches.

Sent out digitally to over 20,000 industry professionals every quarter **AR|VR|MR focus** magazine is the most cost-effective way to engage with potential buyers across a wide range of industries. From optical hardware to software engineers, managers and industry professionals, **AR|VR|MR focus** delivers news relevant to your products.

AR|VR|MR focus will enable you to promote your latest products, underpin your brand and encourage direct contact with researchers and engineers, investors and entrepreneurs at key events throughout the year.

Ensure your latest product launches, press releases and in-person or virtual tradeshow attendance are seen by these key decision makers.

AR|VR|MR focus is a key component in driving your business and strategic marketing planning.

Working in partnership with optics.org, **AR|VR|MR focus** guarantees exposure to highly relevant vertical markets, whilst also expanding product promotion to a wider audience and increasing the potential to reach new customers. optics.org has over 20,000 users visiting the site every month.

Circulation

- Sent quarterly to over 2,000 subscribers
- Promoted digitally to over 20,000+ subscribers of the **optics.org** eNewsletter
- Hosted on **optics.org** for 12 months
- Actively promoted via the **optics.org**, **SPIE** social media and LinkedIn Channels
- Handed out to all attendees of the SPIE ARVRMR show upon registration

Target markets and applications

- Environment
- Health/Medical
- Automotive
- Aerospace/Defense
- Manufacturing
- E-Commerce
- Education
- Computing
- Inspection

Job Function

- Senior Management
- Design & Development/System Integration
- Manufacturing/Production Engineering & Quality Control
- Engineering Management
- Research & Development

Cost effective marketing

AR|VR|MR Focus is a digital magazine. We have no printing or postage costs and pass these savings onto you. Working in partnership with the **optics.org** website **AR|VR|MR Focus** combines the best of magazine and web media to ensure a global presence at a fraction of the cost of other trade magazines.

optics.org VISION focus

VISION focus magazine delivers the very latest news on imaging and machine vision applications and technologies. Targeted at OEMs and system integrators VISION focus puts your products alongside the latest imaging business news, market trends and product launches.

Sent out digitally to over 11,500 industry professionals every quarter **VISION focus** magazine is the most cost effective way to engage with potential buyers across a wide range of industries. From automated production lines to biomedical research **VISION focus** delivers news relevant to your products.

Due to the high demand for targeted marketing solutions that support exhibition attendance and product launches competition for visibility around tradeshows or to secure editorial coverage is fierce. As companies strive to deliver diverse or customised product solutions the need to communicate with potential buyers and business partners has become ever more essential.

VISION focus will enable you to promote your latest products, enforce brand and encourage direct contact at key times in the imaging and machine vision calendar. Ensure your latest product launches, press releases and in-person or virtual tradeshow attendance are seen by the key decision makers; from high speed industrial processes to biomedical imaging, security+defense and multispectral applications. We've got it covered!

Working in partnership with optics.org, **VISION focus** guarantees exposure to highly relevant vertical markets, whilst also expanding product promotion to a wider audience and increasing the potential to reach new customers. optics.org has over 30,000+ user visiting the site every month.

The screenshot shows the May 2023 issue of the VISION focus eNewsletter. It features the optics.org logo and the title 'VISION focus'. The main headline is 'Eye Eye!' with a sub-headline 'Vision innovation inspired by original fish eye lenses'. The text describes bio-inspired optical structures and lists several articles. A list of 'Also in this issue' includes: EMVA celebrates 20th anniversary, AI detection package, SpectraWAVE FDA approval, Luminar deal with Mercedes-Benz, Cuttlefish eye for autonomous vehicles, Mastcam-Z on Mars, NASA/ESA satellite response, quantum optics super-resolution, Korean coherent imaging, Panasonic hyperspectral imaging, and Swiss single-cell tomograms. At the bottom, there are four large pink rectangular boxes labeled: 'Top Sponsor Position', 'Editorial Sponsor Position', 'Whitepaper Sponsor Position', and 'Product Sponsor Position'.

QUANTUM FOCUS

Your gateway to the latest advances in Quantum technology.

- QUANTUM FOCUS, is your quarterly window into the rapidly evolving world of quantum technology and its expanding range of applications
- Our mission at QUANTUM FOCUS is to be your trusted source of insight into the diverse realms of quantum technologies

optics.org QUANTUM FOCUS - advertising opportunities

QUANTUM FOCUS, is your quarterly window into the rapidly evolving world of quantum technology and its expanding range of applications. In an era defined by unprecedented leaps in scientific discovery and technological innovation, the potential of quantum-based technologies ushers in a new era of possibilities, reshaping the boundaries of what is achievable.

As we understand more and explore the further potential for quantum-based technologies, prepare to embark on a journey of discovery and innovation. All brought to you by the same team that has been at the forefront of the optics industry with the industry-leading online resource, **optics.org**.

Our mission at **QUANTUM FOCUS** is to be your trusted source of insight into the diverse realms of quantum technologies. With each issue, we'll delve into the practical applications that are reshaping industries and paving the way for a quantum future.

Here's a peek at the technology sectors we'll be covering in upcoming issues of **QUANTUM FOCUS**:

- Quantum Computing
- Quantum Communication
- Quantum Sensing
- Quantum Materials
- Quantum Cryptography
- Quantum Machine Learning
- Quantum Simulation
- Quantum Metrology
- Quantum in Industry

Stay updated on the real-world applications of quantum technology across various industries, from finance and healthcare to logistics and aerospace.

Stay tuned for our inaugural issue, which will be the **only official magazine** distributed in conjunction with the **SPIE Quantum West** exhibition and conference taking place at Moscone Center, San Francisco 30-31 Jan 2024.

In the dynamic landscape of a rapidly expanding market, **QUANTUM FOCUS** offers you a powerful platform to showcase your products and services to a discerning audience actively seeking industry solutions. By advertising with us, you not only enhance your brand visibility but also position yourself as an industry leader.

Seizing every opportunity to elevate your brand and connect with potential buyers is paramount. Unlock your business's potential and advertise with **QUANTUM FOCUS**.

QUANTUM FOCUS - Exploring tomorrow's technology today!
