

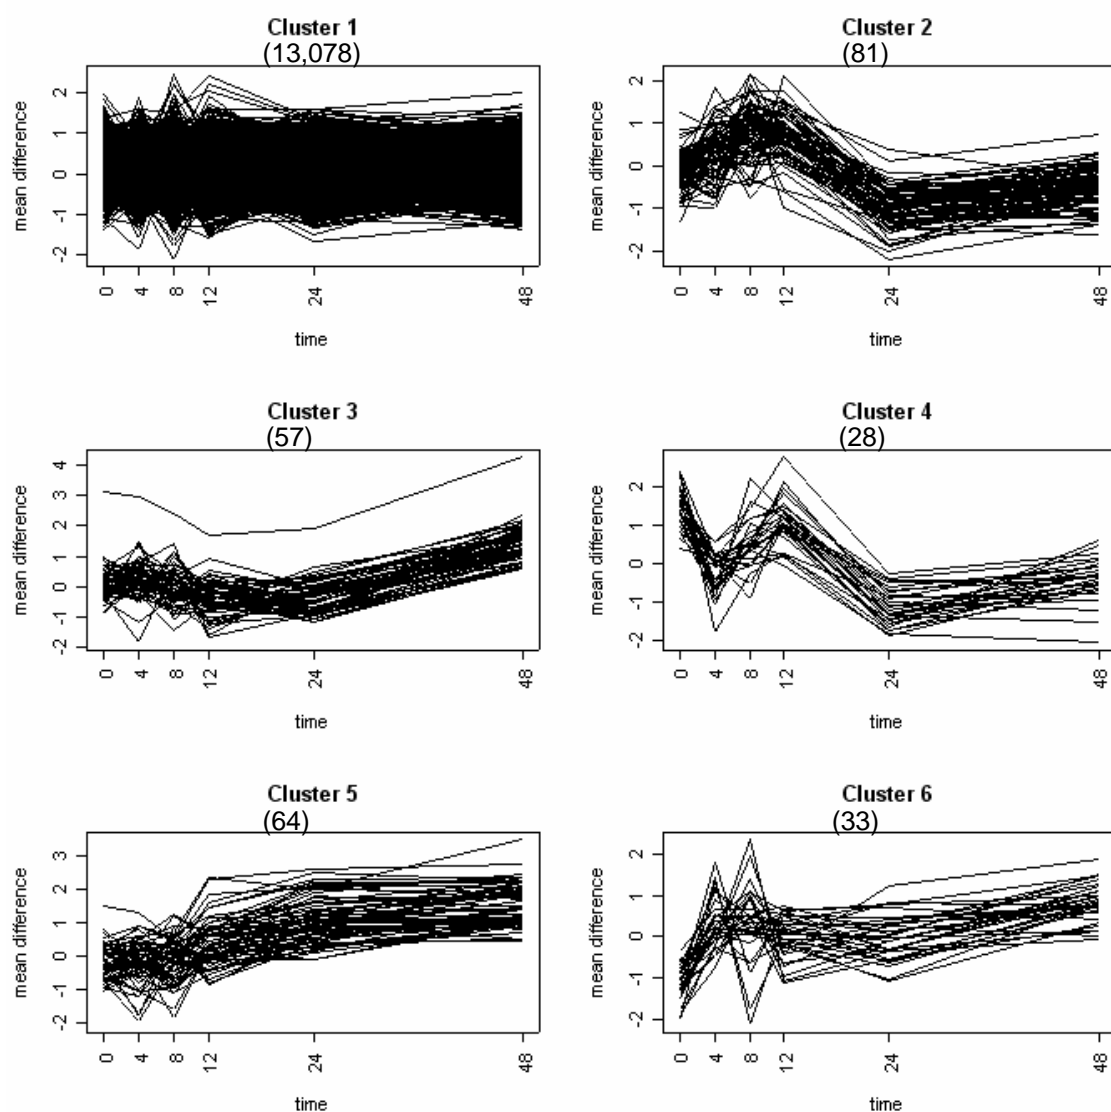

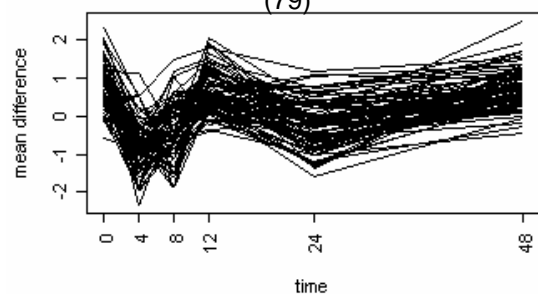

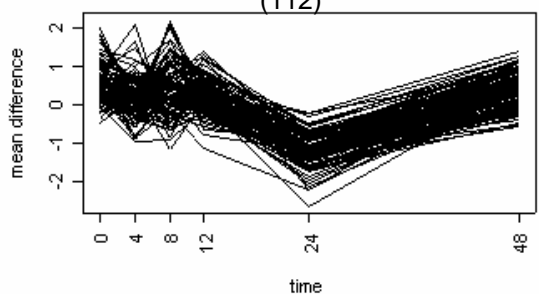

Figure S2 Profiles of mean difference for the 25 clusters of 16,437 transcripts of *Vitis vinifera* after inoculation with the powdery mildew fungus. The number of probe sets belonging to each cluster is included in parenthesis.

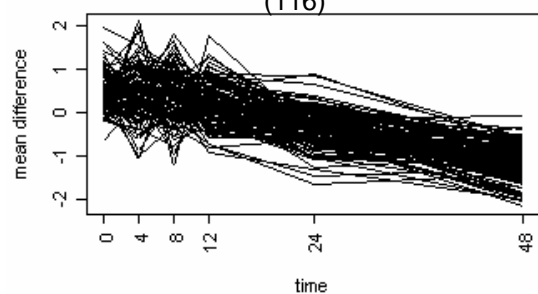

**Cluster 7**  
(79)

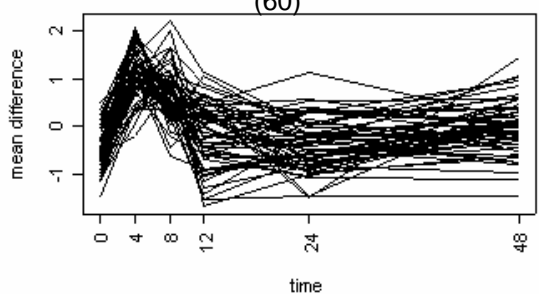

**Cluster 8**  
(112)

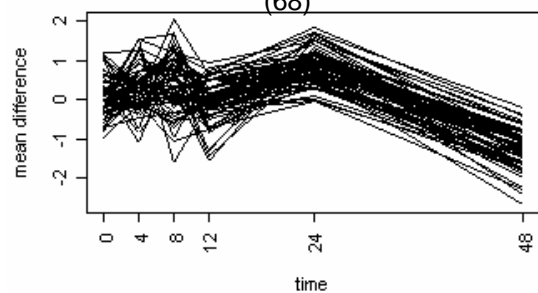

**Cluster 9**  
(116)

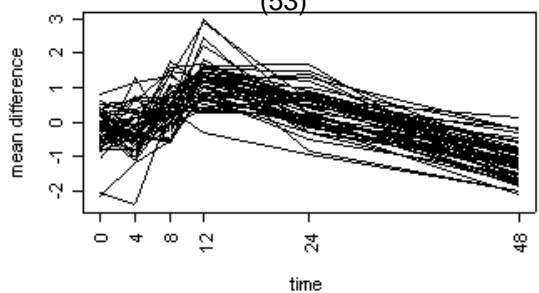

**Cluster 10**  
(60)

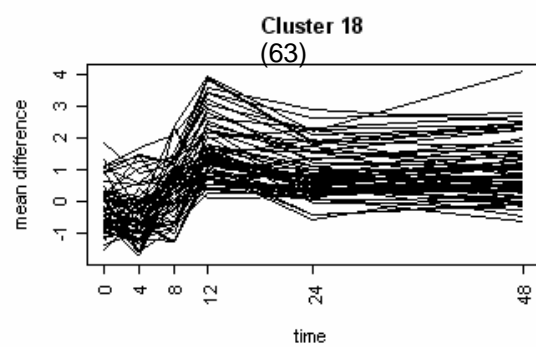

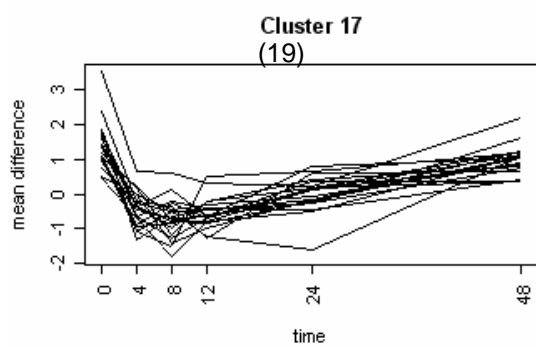

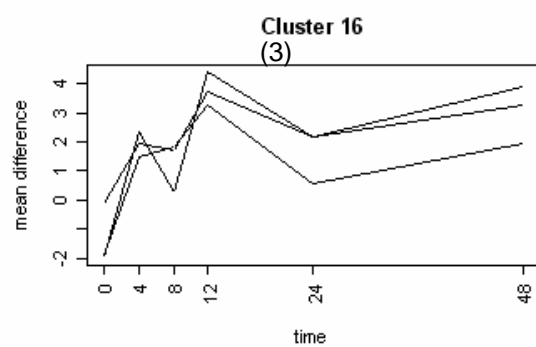

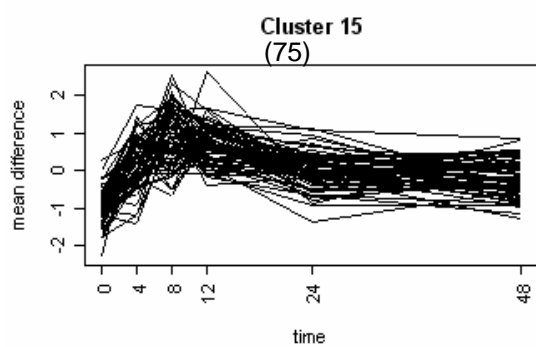

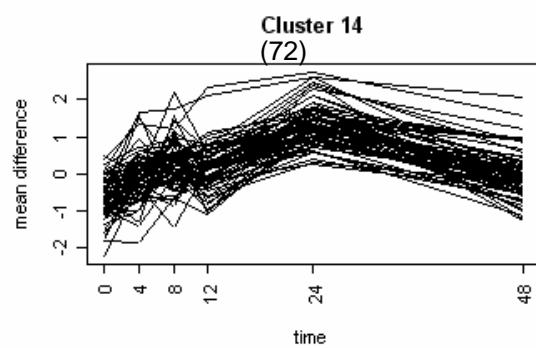

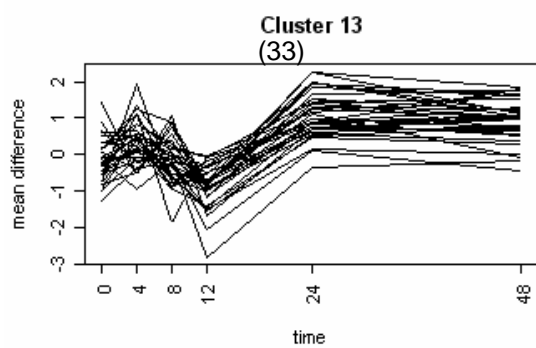

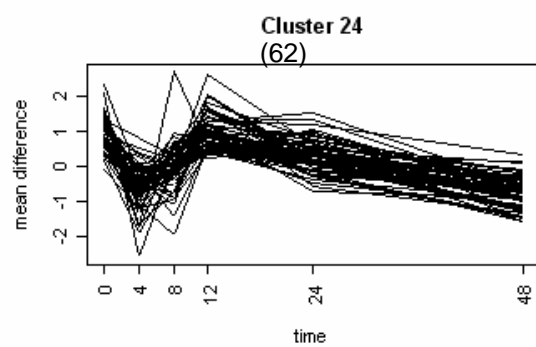

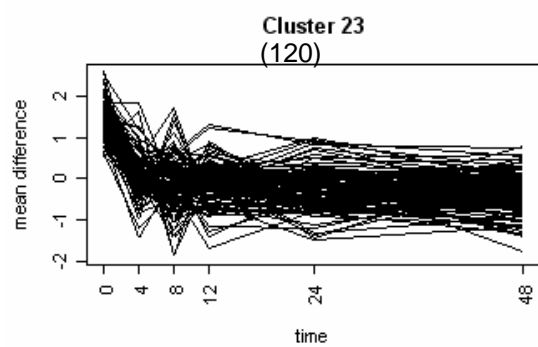

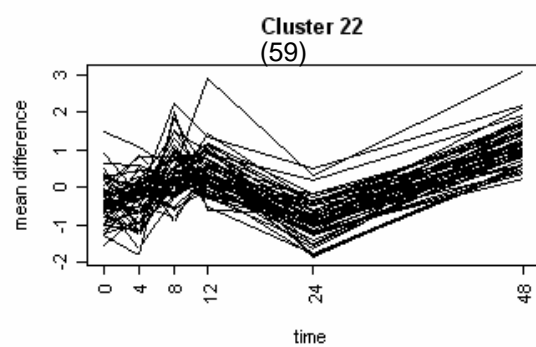

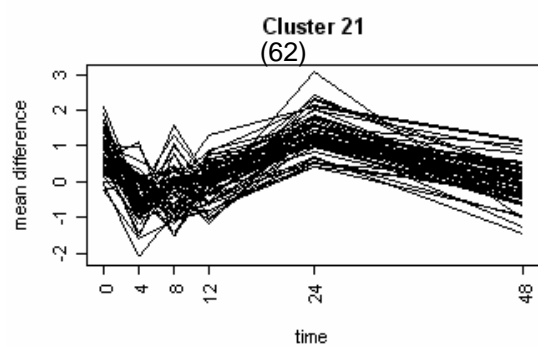

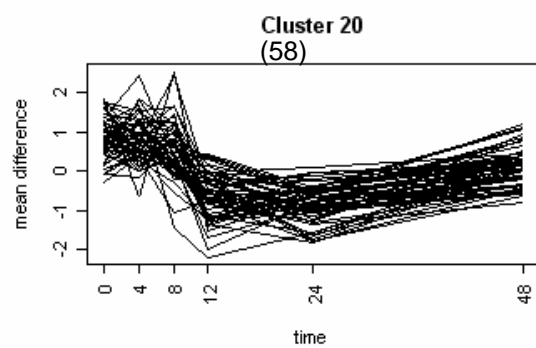

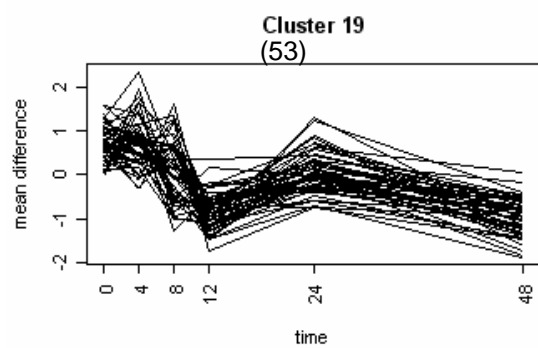

**Cluster 11**  
(68)

**Cluster 12**  
(53)

Cluster 25  
(63)
