MELLIN'S FOOD

For Infants and Invalids.

A Soluble Dry Extract of Barley Malt and Wheat, prepared after the formula of the eminent chemist, Baron Justus von Liebig, for the

MODIFICATION OF FRESH COW'S MILK.

MELLIN'S FOOD is entirely free from Starch; the Carbohydrates contained therein are Dextrins and Maltose.

"The sugar formed by the action of the Ptyalin of the Saliva and the Amylopsin of the Pancreas upon starch is MALTOSE. In the digestive tract MALTOSE is absorbed UNCHANGED." *Textbook of Human Physiology, Landois and Sterling.*

"MALTOSE constitutes the end product of the action of diastase, and amylolytic ferments generally, on starch and its congeners." *Physiology of the Carbohydrates, F. W. Pavy, M.D., LL.D., F.R.S.*

MELLIN'S FOOD, prepared with FRESH COW'S MILK according to the directions, is a true LIEBIG'S FOOD, and the BEST SUBSTITUTE for Mother's Milk yet produced.

THE DOLIBER-GOODALE CO., BOSTON, MASS.
