

Mexico – Tropical Cyclone BLANCA

- On 5 June, at 9.00 UTC, BLANCA was a Category 2 Hurricane and its centre was located 53km south-west of the closest point along the Mexican coast. Over the next 48h, it is forecast to continue moving north-west. Its intensity will initially increase slightly, but it is expected to start weakening late on 6 June. BLANCA may approach Baja California Sur on 8 June, possibly weakened into a Tropical Storm.
- As of 5 June, NOAA has issued no coastal Warnings or Watches.

Niger – Fire incident

- On 2 June, UNHCR, UNICEF and WHO warehouses in Niamey were damaged by a massive fire incident. Most stocks were destroyed, including meningitis epidemics vaccines, children's burn treatment and food items.
- DG ECHO is exploring possibilities to assist UNICEF for the urgent procurement of additional nutritional supplementary feeding.

(ECHO, UNHCR)

Turkey – Refugees

- Turkish authorities allowed the entry of over 2 000 Syrians who in the past week had been gathering at the crossing of Kepezli. Local reports suggest that about 6 000 people have been on the move towards the Turkish, fleeing the fighting in northern Ar-Raqqa.
- Turkish provincial authorities in Urfa are working with UN and NGO partners to provide shelter and basic assistance to the new arrivals.

(ECHO)

Syria – Conflict

- The week has been marked by continuous population displacement as a result of persistent fighting affecting several Syrian governorates. Civilian casualties have been reported daily in Aleppo, Al-Hassakeh, Idleb, Ar-Raqqa and Homs.
- 40 000 people have been reportedly displaced in Idleb in the past weeks. Roughly 7 000 people have been displaced in Aleppo. Displacements have been reported also within and across Al-Hassakeh, Ar-Raqqa and Homs governorates.
