114th Congress

An Act

Sept. 28, 2016
[S. 2040]

To deter terrorism, provide justice for victims, and for other purposes.

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,

Justice Against Sponsors of Terrorism Act.
18 USC 1 note.

SECTION 1. SHORT TITLE.

This Act may be cited as the "Justice Against Sponsors of Terrorism Act".

18 USC 2333 note.

SEC. 2. FINDINGS AND PURPOSE.

(a) FINDINGS.—Congress finds the following:

(1) International terrorism is a serious and deadly problem that threatens the vital interests of the United States.

(2) International terrorism affects the interstate and foreign commerce of the United States by harming international trade and market stability, and limiting international travel by United States citizens as well as foreign visitors to the United States.

(3) Some foreign terrorist organizations, acting through affiliated groups or individuals, raise significant funds outside of the United States for conduct directed and targeted at the United States.

(4) It is necessary to recognize the substantive causes of action for aiding and abetting and conspiracy liability under chapter 113B of title 18, United States Code.

(5) The decision of the United States Court of Appeals for the District of Columbia in Halberstam v. Welch, 705 F.2d 472 (D.C. Cir. 1983), which has been widely recognized as the leading case regarding Federal civil aiding and abetting and conspiracy liability, including by the Supreme Court of the United States, provides the proper legal framework for how such liability should function in the context of chapter 113B of title 18, United States Code.

(6) Persons, entities, or countries that knowingly or recklessly contribute material support or resources, directly or indirectly, to persons or organizations that pose a significant risk of committing acts of terrorism that threaten the security of nationals of the United States or the national security, foreign policy, or economy of the United States, necessarily direct their conduct at the United States, and should reasonably anticipate being brought to court in the United States to answer for such activities.

(7) The United States has a vital interest in providing persons and entities injured as a result of terrorist attacks committed within the United States with full access to the

court system in order to pursue civil claims against persons, entities, or countries that have knowingly or recklessly provided material support or resources, directly or indirectly, to the persons or organizations responsible for their injuries.

(b) PURPOSE.—The purpose of this Act is to provide civil litigants with the broadest possible basis, consistent with the Constitution of the United States, to seek relief against persons, entities, and foreign countries, wherever acting and wherever they may be found, that have provided material support, directly or indirectly, to foreign organizations or persons that engage in terrorist activities against the United States.

"(2) a tortious act or acts of the foreign state, or of any official, employee, or agent of that foreign state while acting within the scope of his or her office, employment, or agency, regardless where the tortious act or acts of the foreign state occurred.

"(c) CLAIMS BY NATIONALS OF THE UNITED STATES.—Notwithstanding section 2337(2) of title 18, a national of the United States may bring a claim against a foreign state in accordance with section 2333 of that title if the foreign state would not be immune under subsection (b).

SEC. 4. AIDING AND ABETTING LIABILITY FOR CIVIL ACTIONS REGARDING TERRORIST ACTS.

SECTION 1. SHORT TITLE; TABLE OF CONTENTS.

16 USC 583k note.

(a) SHORT TITLE.—This Act may be cited as the "National Forest System Trails Stewardship Act".

(b) TABLE OF CONTENTS.—The table of contents for this Act is as follows:

16 USC 583k.

SEC. 2. FINDINGS.

Congress finds as follows:

(1) The National Forest System features a world-class trail system with over 157,000 miles of trails that provide world-class opportunities for hiking, horseback riding, hunting, mountain bicycling, motorized vehicles, and other outdoor activities.

(2) According to the Government Accountability Office, the Forest Service is only able to maintain about one-quarter of National Forest System trails to the agency standard, and the agency faces a trail maintenance backlog of $314 million, and an additional backlog of $210 million in annual maintenance, capital improvements, and operations.

(3) The lack of maintenance on National Forest System trails threatens access to public lands, and may cause increased environmental damage, threaten public safety, and increase future maintenance costs.

(4) Federal budget limitations require solutions to National Forest System trail maintenance issues that make more efficient use of existing resources.

(5) Volunteers, partners, and outfitters and guides play an important role in maintaining National Forest System trails, and a comprehensive strategy is needed to ensure that volunteers and partners are used as effectively as possible.

"(2) BENEFIT-RISK CONSIDERATION.—The Secretary's determination of safety and effectiveness of an antibacterial or antifungal drug shall reflect the benefit-risk profile of such drug in the intended limited population, taking into account the severity, rarity, or prevalence of the infection the drug is intended to treat and the availability or lack of alternative treatment in such limited population. Such drug may be

approved under this subsection notwithstanding a lack of evidence to fully establish a favorable benefit-risk profile in a population that is broader than the intended limited population.

"(3) ADDITIONAL REQUIREMENTS.—A drug approved under this subsection shall be subject to the following requirements, in addition to any other applicable requirements of this Act:

"(A) LABELING.—To indicate that the safety and effectiveness of a drug approved under this subsection has been demonstrated only with respect to a limited population—

The Secretary may approve antibacterial and antifungal drugs under this subsection prior to issuing guidance under this paragraph.

"(6) ADVICE.—The Secretary shall provide prompt advice to the sponsor of a drug for which the sponsor seeks approval under this subsection to enable the sponsor to plan a development program to obtain the necessary data for such approval, and to conduct any additional studies that would be required to gain approval of such drug for use in a broader population.

"(7) TERMINATION OF LIMITATIONS.—If, after approval of a drug under this subsection, the Secretary approves a broader indication for such drug under section 505(b) or section 351(a) of the Public Health Service Act, the Secretary may remove

any postmarketing conditions, including requirements with respect to labeling and review of promotional materials under paragraph (3), applicable to the approval of the drug under this subsection.

Such report shall include a review of such activities, and the extent to which the use of the pathway established under this subsection has streamlined premarket approval for antibacterial or antifungal drugs for limited populations, if such pathway has functioned as intended, if such pathway has helped provide for safe and effective treatment for patients, if such premarket approval would be appropriate for other categories of drugs, and if the authorities under this subsection have affected antibacterial or antifungal resistance.".

21 USC 356 note.

SEC. 3043. PRESCRIBING AUTHORITY.

Nothing in this subtitle, or an amendment made by this subtitle, shall be construed to restrict the prescribing of antimicrobial drugs or other products, including drugs approved under subsection (h) of section 506 of the Federal Food, Drug, and Cosmetic Act (21 U.S.C. 356) (as added by section 3042), by health care professionals, or to limit the practice of health care.

SEC. 3044. SUSCEPTIBILITY TEST INTERPRETIVE CRITERIA FOR MICROORGANISMS; ANTIMICROBIAL SUSCEPTIBILITY TESTING DEVICES.

21 USC 360a–2.

"SEC. 511A. SUSCEPTIBILITY TEST INTERPRETIVE CRITERIA FOR MICROORGANISMS.

"(a) PURPOSE; IDENTIFICATION OF CRITERIA.—

"(1) PURPOSE.—The purpose of this section is to clarify the Secretary's authority to—

"(A) efficiently update susceptibility test interpretive criteria for antimicrobial drugs when necessary for public

health, due to, among other things, the constant evolution of microorganisms that leads to the development of resistance to drugs that have been effective in decreasing morbidity and mortality for patients, which warrants unique management of antimicrobial drugs that is inappropriate for most other drugs in order to delay or prevent the development of further resistance to existing therapies;

"(B) provide for public notice of the availability of recognized interpretive criteria and interpretive criteria standards; and

"(C) clear under section 510(k), classify under section 513(f)(2), or approve under section 515, antimicrobial susceptibility testing devices utilizing updated, recognized susceptibility test interpretive criteria to characterize the in vitro susceptibility of particular bacteria, fungi, or other microorganisms, as applicable, to antimicrobial drugs.

"(2) IDENTIFICATION OF CRITERIA.—The Secretary shall identify appropriate susceptibility test interpretive criteria with respect to antimicrobial drugs—

"(A) if such criteria are available on the date of approval of the drug under section 505 of this Act or licensure of the drug under section 351 of the Public Health Service Act (as applicable), upon such approval or licensure; or

"(B) if such criteria are unavailable on such date, on the date on which such criteria are available for such drug.

"(3) BASES FOR INITIAL IDENTIFICATION.—The Secretary shall identify appropriate susceptibility test interpretive criteria under paragraph (2), based on the Secretary's review of, to the extent available and relevant—

"(A) preclinical and clinical data, including pharmacokinetic, pharmacodynamic, and epidemiological data;

"(B) the relationship of susceptibility test interpretive criteria to morbidity and mortality associated with the disease or condition for which such drug is used; and

"(C) such other evidence and information as the Secretary considers appropriate.

"(b) SUSCEPTIBILITY TEST INTERPRETIVE CRITERIA WEBSITE.—

"(1) IN GENERAL.—Not later than 1 year after the date of the enactment of the 21st Century Cures Act, the Secretary shall establish, and maintain thereafter, on the website of the Food and Drug Administration, a dedicated website that contains a list of any appropriate new or updated susceptibility test interpretive criteria standards and interpretive criteria in accordance with paragraph (2) (referred to in this section as the 'Interpretive Criteria Website').

"(2) LISTING OF SUSCEPTIBILITY TEST INTERPRETIVE CRITERIA STANDARDS AND INTERPRETIVE CRITERIA.—

"(A) IN GENERAL.—The list described in paragraph (1) shall consist of any new or updated susceptibility test interpretive criteria standards that are—

"(i) established by a nationally or internationally recognized standard development organization that—

"(I) establishes and maintains procedures to address potential conflicts of interest and ensure transparent decisionmaking;

"(II) holds open meetings to ensure that there is an opportunity for public input by interested parties, and establishes and maintains processes to ensure that such input is considered in decision-making; and

"(III) permits its standards to be made publicly available, through the National Library of Medicine or another similar source acceptable to the Secretary; and

"(ii) recognized in whole, or in part, by the Secretary under subsection (c).

"(B) OTHER LIST.—The Interpretive Criteria Website shall, in addition to the list described in subparagraph (A), include a list of interpretive criteria, if any, that the Secretary has determined to be appropriate with respect to legally marketed antimicrobial drugs, where—

"(i) the Secretary does not recognize, in whole or in part, an interpretive criteria standard described under subparagraph (A) otherwise applicable to such a drug;

"(ii) the Secretary withdraws under subsection (c)(1)(A) recognition of a standard, in whole or in part, otherwise applicable to such a drug;

"(iii) the Secretary approves an application under section 505 of this Act or section 351 of the Public Health Service Act, as applicable, with respect to marketing of such a drug for which there are no relevant interpretive criteria included in a standard recognized by the Secretary under subsection (c); or

"(iv) because the characteristics of such a drug differ from other drugs with the same active ingredient, the interpretive criteria with respect to such drug—

"(I) differ from otherwise applicable interpretive criteria included in a standard listed under subparagraph (A) or interpretive criteria otherwise listed under this subparagraph; and

"(II) are determined by the Secretary to be appropriate for the drug.

"(C) REQUIRED STATEMENTS.—The Interpretive Criteria Website shall include statements conveying—

"(i) that the website provides information about the in vitro susceptibility of bacteria, fungi, or other microorganisms, as applicable to a certain drug (or drugs);

"(ii) that—

"(I) the safety and efficacy of such drugs in treating clinical infections due to such bacteria, fungi, or other microorganisms, as applicable, may or may not have been established in adequate and well-controlled clinical trials in order for the susceptibility information described in clause (i) to be included on the website; and

"(II) the clinical significance of such susceptibility information in such instances is unknown;

"(iii) that the approved product labeling for specific drugs provides the uses for which the Secretary has approved the product; and

"(iv) any other information that the Secretary determines appropriate to adequately convey the meaning of the data supporting the recognition or listing of susceptibility test interpretive criteria standards or susceptibility test interpretive criteria included on the website.

"(3) NOTICE.—Not later than the date on which the Interpretive Criteria Website is established, the Secretary shall publish a notice of that establishment in the Federal Register.

"(4) INAPPLICABILITY OF MISBRANDING PROVISION.—The inclusion in the approved labeling of an antimicrobial drug of a reference or hyperlink to the Interpretive Criteria Website, in and of itself, shall not cause the drug to be misbranded in violation of section 502.

"(5) TRADE SECRETS AND CONFIDENTIAL INFORMATION.—Nothing in this section shall be construed as authorizing the Secretary to disclose any information that is a trade secret or confidential information subject to section 552(b)(4) of title 5, United States Code.

"(i) evaluate any appropriate new or updated susceptibility test interpretive criteria standards established by a nationally or internationally recognized standard development organization described in subsection (b)(2)(A)(i); and

"(ii) publish on the public website of the Food and Drug Administration a notice—

"(I) withdrawing recognition of any different susceptibility test interpretive criteria standard, in whole or in part;

"(II) recognizing the new or updated standards;

"(III) recognizing one or more parts of the new or updated interpretive criteria specified in such a standard and declining to recognize the remainder of such standard; and

"(IV) making any necessary updates to the lists under subsection (b)(2).

"(B) UPON APPROVAL OF A DRUG.—Upon the approval of an initial or supplemental application for an antimicrobial drug under section 505 of this Act or section 351 of the Public Health Service Act, as applicable, where such approval is based on susceptibility test interpretive criteria which differ from those contained in a standard recognized, or from those otherwise listed, by the Secretary pursuant to this subsection, or for which there are no relevant interpretive criteria standards recognized, or interpretive criteria otherwise listed, by the Secretary pursuant to this subsection, the Secretary shall update the lists under subparagraphs (A) and (B) of subsection (b)(2) to include the susceptibility test interpretive criteria upon which such approval was based.

"(2) BASES FOR UPDATING INTERPRETIVE CRITERIA STANDARDS.—In evaluating new or updated susceptibility test interpretive criteria standards under paragraph (1)(A), the Secretary may consider—

"(A) the Secretary's determination that such a standard is not applicable to a particular drug because the characteristics of the drug differ from other drugs with the same active ingredient;

"(B) information provided by interested third parties, including public comment on the annual compilation of notices published under paragraph (3);

"(C) any bases used to identify susceptibility test interpretive criteria under subsection (a)(2); and

"(D) such other information or factors as the Secretary determines appropriate.

"(3) ANNUAL COMPILATION OF NOTICES.—Each year, the Secretary shall compile the notices published under paragraph (1)(A) and publish such compilation in the Federal Register and provide for public comment. If the Secretary receives comments, the Secretary shall review such comments and, if the Secretary determines appropriate, update pursuant to this subsection susceptibility test interpretive criteria standards or criteria—

"(B) otherwise listed on the Interpretive Criteria Website under subsection (b)(2).

"(4) RELATION TO SECTION 514(c).—Any susceptibility test interpretive standard recognized under this subsection or any criteria otherwise listed under subsection (b)(2)(B) shall be deemed to be recognized as a standard by the Secretary under section 514(c)(1).

"(5) VOLUNTARY USE OF INTERPRETIVE CRITERIA.—Nothing in this section prohibits a person from seeking approval or clearance of a drug or device, or changes to the drug or the device, on the basis of susceptibility test interpretive criteria which differ from those contained in a standard recognized, or from those otherwise listed, by the Secretary pursuant to subsection (b)(2).

"(d) ANTIMICROBIAL DRUG LABELING.—

"(1) DRUGS MARKETED PRIOR TO ESTABLISHMENT OF INTERPRETIVE CRITERIA WEBSITE.—

"(B) LABELING CHANGES.—The labeling changes required by this section shall be considered a minor change

under section 314.70 of title 21, Code of Federal Regulations (or any successor regulations) that may be implemented through documentation in the next applicable annual report.

"(2) DRUGS MARKETED SUBSEQUENT TO ESTABLISHMENT OF INTERPRETIVE CRITERIA WEBSITE.—With respect to antimicrobial drugs approved on or after the date of the establishment of the Interpretive Criteria Website described in subsection (b)(1), the labeling for such a drug shall include, in lieu of susceptibility test interpretive criteria and related information, a reference to such Website.

TITLE XI—COMPASSIONATE COMMUNICATION ON HIPAA

SEC. 11001. SENSE OF CONGRESS.

(a) FINDINGS.—Congress finds the following:

(1) According to the National Survey on Drug Use and Health, in 2015, there were approximately 9,800,000 adults in the United States with serious mental illness.

(2) The Substance Abuse and Mental Health Services Administration defines the term "serious mental illness" as an illness affecting individuals 18 years of age or older as having, at any time in the past year, a diagnosable mental, behavioral, or emotional disorder that results in serious functional impairment and substantially interferes with or limits one or more major life activities.

(3) In reporting on the incidence of serious mental illness, the Substance Abuse and Mental Health Services Administration includes major depression, schizophrenia, bipolar disorder, and other mental disorders that cause serious impairment.

(4) Adults with a serious mental illness are at a higher risk for chronic physical illnesses and premature death.

(5) According to the World Health Organization, adults with a serious mental illness have lifespans that are 10 to 25 years shorter than those without serious mental illness. The vast majority of these deaths are due to chronic physical medical conditions, such as cardiovascular, respiratory, and infectious diseases, as well as diabetes and hypertension.

(6) According to the World Health Organization, the majority of deaths of adults with a serious mental illness that are due to physical medical conditions are preventable.

(7) Supported decision making can facilitate care decisions in areas where serious mental illness may impact the capacity of an individual to determine a course of treatment while still allowing the individual to make decisions independently.

(8) Help should be provided to adults with a serious mental illness to address their acute or chronic physical illnesses, make informed choices about treatment, and understand and follow through with appropriate treatment.

(9) There is confusion in the health care community regarding permissible practices under the regulations promulgated under the Health Insurance Portability and Accountability Act of 1996 (commonly known as "HIPAA"). This confusion may hinder appropriate communication of health care information or treatment preferences with appropriate caregivers.

(b) SENSE OF CONGRESS.—It is the sense of Congress that clarification is needed regarding the privacy rule promulgated under section 264(c) of the Health Insurance Portability and Accountability Act of 1996 (42 U.S.C. 1320d–2 note) regarding existing permitted uses and disclosures of health information by health care professionals to communicate with caregivers of adults with a serious mental illness to facilitate treatment.

SEC. 11002. CONFIDENTIALITY OF RECORDS.

Not later than 1 year after the date on which the Secretary of Health and Human Services (in this title referred to as the "Secretary") first finalizes regulations updating part 2 of title 42, Code of Federal Regulations, relating to confidentiality of alcohol and drug abuse patient records, after the date of enactment of this Act, the Secretary shall convene relevant stakeholders to determine the effect of such regulations on patient care, health outcomes, and patient privacy.

(b) GUIDANCE.—

(2) CIRCUMSTANCES ADDRESSED.—The guidance issued under this section shall address circumstances including those that—

(A) require the consent of the patient;

(B) require providing the patient with an opportunity to object;

(C) are based on the exercise of professional judgment regarding whether the patient would object when the opportunity to object cannot practicably be provided because of the incapacity of the patient or an emergency treatment circumstance; and

(D) are determined, based on the exercise of professional judgment, to be in the best interest of the patient when the patient is not present or otherwise incapacitated.

(3) COMMUNICATION WITH FAMILY MEMBERS AND CAREGIVERS.—In addressing the circumstances described in paragraph (2), the guidance issued under this section shall clarify permitted uses or disclosures of protected health information for purposes of—

(A) communicating with a family member of the patient, caregiver of the patient, or other individual, to the extent that such family member, caregiver, or individual is involved in the care of the patient;

(B) in the case that the patient is an adult, communicating with a family member of the patient, caregiver of the patient, or other individual involved in the care of the patient;

(C) in the case that the patient is a minor, communicating with the parent or caregiver of the patient;

(D) involving the family members or caregivers of the patient, or others involved in the patient's care or care plan, including facilitating treatment and medication adherence;

(E) listening to the patient, or receiving information with respect to the patient from the family or caregiver of the patient;

(F) communicating with family members of the patient, caregivers of the patient, law enforcement, or others when the patient presents a serious and imminent threat of harm to self or others; and

"(A) IN GENERAL.—The term 'qualified small employer health reimbursement arrangement' means an arrangement which—

"(i) is described in subparagraph (B), and

"(ii) is provided on the same terms to all eligible employees of the eligible employer.

"(B) ARRANGEMENT DESCRIBED.—An arrangement is described in this subparagraph if—

"(I) such dollar amount, multiplied by

"(II) the cost-of-living adjustment determined under section 1(f)(3) for the calendar year in which the taxable year begins, determined by substituting 'calendar year 2015' for 'calendar year 1992' in subparagraph (B) thereof.

An Act

Dec. 14, 2016
[S. 1555]

To award a Congressional Gold Medal, collectively, to the Filipino veterans of World War II, in recognition of the dedicated service of the veterans during World War II.

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,

Filipino Veterans of World War II Congressional Gold Medal Act of 2015.
31 USC 5111 note.

SECTION 1. SHORT TITLE.

This Act may be cited as the "Filipino Veterans of World War II Congressional Gold Medal Act of 2015".

SEC. 2. FINDINGS.

Congress finds the following:

(1) The First Philippine Republic was founded as a result of the Spanish-American War in which Filipino revolutionaries and the United States Armed Forces fought to overthrow Spanish colonial rule. On June 12, 1898, Filipinos declared the Philippines to be an independent and sovereign nation. The Treaty of Paris negotiated between the United States and Spain ignored this declaration of independence, and the United States paid Spain $20,000,000 to cede control of the Philippines to the United States. Filipino nationalists who sought independence rather than a change in colonial rulers clashed with forces of the United States in the Islands. The Philippine-American War, which officially lasted for 3 years from 1899 to 1902, led to the establishment of the United States civil government in the Philippines.

(2) In 1901, units of Filipino soldiers who fought for the United States against the nationalist insurrection were formally incorporated into the United States Army as the Philippine Scouts.

(3) In 1934, the Philippine Independence Act (Public Law 73–127; 48 Stat. 456) established a timetable for ending colonial rule of the United States. Between 1934 and Philippine independence in 1946, the United States retained sovereignty over Philippine foreign policy and reserved the right to call Filipinos into the service of the United States Armed Forces.

(4) On December 21 1935, President of the Philippine Commonwealth, Manuel Quezon, signed the National Defense Act, passed by the Philippine Assembly. General Douglas MacArthur set upon the task of creating an independent army in the Philippines, consisting of a small regular force, the Philippine Constabulary, a police force created during the colonial period of the United States, and reservists. By July 1941, the Philippine army had 130,000 reservists and 6,000 officers.

(5) On July 26, 1941, as tensions with Japan rose in the Pacific, President Franklin D. Roosevelt used his authority vested in the Constitution of the United States and the Philippine Independence Act to "call into service of the United States . . . all of the organized military forces of the Government of the Philippines." On July 27th, 1941, in accordance with a War Department directive received a day earlier, the United States Forces in the Far East (USAFFE) was established, and Manila was designated as the command headquarters. Commander of the USAFFE, General Douglas MacArthur, planned to absorb the entire Philippine army into the USAFFE in phases. The first phase, which began on September 1, 1941, included 25,000 men and 4,000 officers.

(6) Filipinos who served in the USAFFE included—

(A) the Philippine Scouts, who comprised half of the 22,532 soldiers in the Philippine Department, or United States Army garrison stationed in the Islands at the start of the war;

(B) the Philippine Commonwealth Army;

(C) the new Philippine Scouts, or Filipinos who volunteered to serve with the United States Army when the United States Armed Forces returned to the island;

(D) Filipino civilians who volunteered to serve in the United States Armed Forces in 1945 and 1946, and who became "attached" to various units of the United States Army; and

(E) the "Guerrilla Services" who had fought behind enemy lines throughout the war.

(7) Even after hostilities ceased, wartime service of the new Philippine Scouts continued as a matter of law until the end of 1946, and the force gradually disbanded until it was disestablished in 1950.

(8) On December 8th, 1941, not even 24 hours after the bombing of Pearl Harbor, Japanese Imperial forces attacked bases of the United States Army in the Philippines.

(9) In the spring of 1942, the Japanese 14th Army overran the Bataan Peninsula, and, after a heroic but futile defense, more than 78,000 members of the United States Armed Forces were captured, specifically 66,000 Filipinos and 12,000 service members from the United States. The Japanese transferred the captured soldiers from Bataan to Camp O'Donnell, in what is now known as the infamous Bataan Death March. Forced to march the 70-mile distance in 1 week, without adequate food, water, or medicine, nearly 700 members of the United States Armed Forces and an estimated 6,000 to 10,000 Filipinos perished during the journey.

(10) After the fall of the Bataan Peninsula, the Japanese Army turned its sights on Corregidor. The estimated forces in defense of Corregidor totaled 13,000, and were comprised of members of the United States Armed Forces and Filipino troops. Of this number, 800 were killed, 1,000 were wounded, and 11,000 were captured and forced to march through the city of Manila, after which the captured troops were distributed to various POW camps. The rest of the captured troops escaped to organize or join an underground guerrilla army.

(11) Even before the fall of Corregidor, Philippine resistance, in the form of guerrilla armies, began to wage warfare

on the Japanese invaders. Guerrilla armies, from Northern Luzon to Mindanao—

(A) raided Japanese camps, stealing weapons and supplies;

(B) sabotaged and ambushed Japanese troops on the move; and

(C) with little weaponry, and severely outmatched in numbers, began to extract victories.

(12) Japanese intelligence reports reveal that from the time the Japanese invaded until the return of the United States Armed Forces in the summer of 1944, an estimated 300,000 Filipinos continued to fight against Japanese forces. Filipino resistance against the Japanese was so strong that, in 1942, the Imperial Army formed the Morista Butai, a unit designated to suppress guerrillas.

(13) Because Philippine guerrillas worked to restore communication with United States forces in the Pacific, General MacArthur was able to use the guerrillas in advance of a conventional operation and provided the headquarters of General MacArthur with valuable information. Guerrillas captured and transmitted to the headquarters of General MacArthur Japanese naval plans for the Central Pacific, including defense plans for the Mariana Islands. Intelligence derived from guerrillas relating to aircraft, ship, and troop movements allowed for Allied forces to attack Japanese supply lines and guerrillas and even directed United States submarines where to land agents and cargo on the Philippine coast.

(14) On December 20, 1941, President Roosevelt signed the Selective Training and Service Amendments Act (Public Law 77–360; 55 Stat. 844) which, among other things, allowed Filipinos in the United States to enlist in the United States Armed Forces. In February 1942, President Roosevelt issued the Second War Powers Act (Public Law 77–507; 56 Stat. 176), promising a simplified naturalization process for Filipinos who served in the United States Armed Forces. Subsequently, 16,000 Filipinos in California alone decided to enlist.

(15) The mobilization of forces included the activation and assumption of command of the First Filipino Infantry Battalion on April 1, 1942, at Camp San Luis Obispo, California. Orders were issued to activate the First Filipino Infantry Regiment and Band at Salinas, California, effective July 13, 1942. The activation of the Second Filipino Infantry Regiment occurred at Fort Ord, California, on November 21, 1942. Nearly 9,000 Filipinos and Filipino Americans fought in the United States Army 1st and 2nd Filipino Infantry Regiments.

(16) Soldiers of the 1st and 2nd Infantry Regiments participated in the bloody combat and mop-up operations at New Guinea, Leyte, Samar, Luzon, and the Southern Philippines. In 1943, 800 men were selected from the 1st and 2nd Regiments and shipped to Australia to receive training in intelligence gathering, sabotage, and demolition. Reorganized as part of the 1st Reconnaissance Battalion, this group was sent to the Philippines to coordinate with major guerrilla armies in the Islands. Members of the 1st Regiment were also attached to the United States 6th Army "Alamo Scouts", a reconnaissance group that traveled 30 miles behind enemy lines to free Allied prisoners from the Cabanatuan death camp on January 30,

1945. In addition, in 1945, according to the 441st Counter Intelligence Unit of the United States Armed Forces, Philippine guerrillas provided "very important information and sketches of enemy positions and installations" for the liberation of the Santo Tomas prisoner of war camp, an event that made front page news across the United States.

(17) In March 1944, members of the 2nd Filipino Infantry Regiment were selected for special assignments, including intelligence missions, and reorganized as the 2nd Filipino Infantry Battalion (Separate). The 2nd Filipino Infantry Battalion (Separate) contributed to mop-up operations as a civil affairs unit.

(18) Filipinos participated in the war out of national pride, as well as out of a commitment to the Allied forces struggle against fascism. 57,000 Filipinos in uniform died in the war effort. Estimates of civilian deaths range from 700,000 to upwards of 1,000,000, or between 4.38 to 6.25 percent of the prewar population of 16,000,000.

(19) Because Filipinos who served in the Commonwealth Army of the Philippines were originally considered a part of the Allied struggle, the military order issued by President Roosevelt on July 26, 1941, stated that Filipinos who served in the Commonwealth Army of the Philippines were entitled to full veterans benefits. The guarantee to pay back the service of Filipinos through veterans benefits was reversed by the Rescission Acts of 1946 (Public Laws 79–301 and 79–391; 60 Stat. 6 and 60 Stat. 221), which deemed that the wartime service of the Commonwealth Army of the Philippines and the new Philippine Scouts was not considered active and, therefore, did not qualify for benefits.

(20) The loyal and valiant Filipino Veterans of World War II fought, suffered, and, in many instances, died in the same manner and under the same commander as other members of the United States Armed Forces during World War II.

(21) The Filipino Veterans of World War II fought alongside, and as an integral part of, the United States Armed Forces. The Philippines remained a territory of the United States for the duration of the war and, accordingly, the United States maintained sovereignty over Philippine foreign relations, including Philippine laws enacted by the Philippine Government. Filipinos who fought in the Philippines were not only defending or fighting for the Philippines, but also defending, and ultimately liberating, sovereign territory held by the United States Government.

(22) The United States remains forever indebted to the bravery, valor, and dedication that the Filipino Veterans of World War II displayed. Their commitment and sacrifice demonstrates a highly uncommon and commendable sense of patriotism and honor.

114th Congress

An Act

To award the Congressional Gold Medal, collectively, to the members of the Office of Strategic Services (OSS) in recognition of their superior service and major contributions during World War II.

Dec. 14, 2016
[S. 2234]

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,

Office of Strategic Services Congressional Gold Medal Act. 31 USC 5111 note.

SECTION 1. SHORT TITLE.

This Act may be cited as the "Office of Strategic Services Congressional Gold Medal Act".

SEC. 2. FINDINGS.

The Congress finds the following:

(1) The Office of Strategic Services (OSS) was America's first effort to implement a system of strategic intelligence during World War II and provided the basis for the modern-day American intelligence and special operations communities. The U.S. Special Operations Command and the National Clandestine Service chose the OSS spearhead as their insignias.

(2) OSS founder General William J. Donovan is the only person in American history to receive our Nation's four highest decorations, including the Medal of Honor. Upon learning of his death in 1959, President Eisenhower called General Donovan the "last hero". In addition to founding and leading the OSS, General Donovan was also selected by President Roosevelt, who called him his "secret legs", as an emissary to Great Britain and continental Europe before the United States entered World War II.

(3) All the military branches during World War II contributed personnel to the OSS. The present-day Special Operations Forces trace their lineage to the OSS. Its Maritime Unit was a precursor to the U.S. Navy SEALs. The OSS Operational Groups and Jedburghs were forerunners to U.S. Army Special Forces. The 801st/492nd Bombardment Group ("Carpetbaggers") were progenitors to the Air Force Special Operations Command. The Marines who served in the OSS, including the actor Sterling Hayden (a Silver Star recipient), Col. William Eddy (a Distinguished Service Cross recipient who was described as the "nearest thing the United States has had to a Lawrence of Arabia"), and Col. Peter Ortiz (a two-time Navy Cross recipient), were predecessors to the Marine Special Operations Command. U.S. Coast Guard personnel were recruited for the Maritime Unit and its Operational Swimmer Group.

(4) The OSS organized, trained, supplied, and fought with resistance organizations throughout Europe and Asia that played an important role in America's victory during World War II. General Eisenhower credited the OSS's covert contribution in France to the equivalent to having an extra military division. General Eisenhower told General Donovan that if it did nothing else, the photographic reconnaissance conducted by the OSS prior to the D-Day Invasion justified its creation.

(5) Four future directors of central intelligence served as OSS officers: William Casey, William Colby, Allen Dulles, and Richard Helms.

(6) Women comprised more than one-third of OSS personnel and played a critical role in the organization. They included Virginia Hall, the only civilian female to receive a Distinguished Service Cross in World War II, and Julia Child.

(7) OSS recruited Fritz Kolbe, a German diplomat who became America's most important spy against the Nazis in World War II.

(8) America's leading scientists and scholars served in the OSS Research and Analysis Branch, including Ralph Bunche, the first African-American to receive the Nobel Peace Prize; Pulitzer Prize-winning historian Arthur Schlesinger, Jr.; Supreme Court Justice Arthur Goldberg; Sherman Kent; John King Fairbank; and Walt Rostow. Its ranks included seven future presidents of the American Historical Association, five of the American Economic Association, and two Nobel laureates.

(9) The U.S. Department of State's Bureau of Intelligence and Research traces its creation to the OSS Research and Analysis Branch.

(10) James Donovan, who was portrayed by Tom Hanks in the Steven Spielberg movie "Bridge of Spies" and negotiated the release of U–2 pilot Francis Gary Powers, served as General Counsel of the OSS.

(11) The OSS invented and employed new technology through its Research and Development Branch, inventing new weapons and revolutionary communications equipment. Dr. Christian Lambertsen invented the first underwater rebreathing apparatus that was first utilized by the OSS and is known today as SCUBA.

(12) OSS Detachment 101 operated in Burma and pioneered the art of unconventional warfare. It was the first United States unit to deploy a large guerrilla army deep in enemy territory. It has been credited with the highest kill/loss ratio for any infantry-type unit in American military history and was awarded a Presidential Unit Citation.

(13) Its X–2 branch pioneered counterintelligence with the British and established the modern counterintelligence community. The network of contacts built by the OSS with foreign intelligence services led to enduring Cold War alliances.

(14) Operation Torch, the Allied invasion of French North Africa in November 1942, was aided by the networks established and information acquired by the OSS to guide Allied landings.

(15) OSS Operation Halyard rescued more than 500 downed airmen trapped behind enemy lines in Yugoslavia, one of the most daring and successful rescue operations of World War II.

(16) OSS "Mercy Missions" at the end of World War II saved the lives of thousands of Allied prisoners of war whom it was feared would be murdered by the Japanese.

(17) The handful of surviving men and women of the OSS whom General Donovan said performed "some of the bravest acts of the war" are members of the "Greatest Generation". They have never been collectively recognized for their heroic and pioneering service in World War II.

SEC. 3. CONGRESSIONAL GOLD MEDAL.

(a) PRESENTATION AUTHORIZED.—The Speaker of the House of Representatives and the President pro tempore of the Senate shall make appropriate arrangements for the presentation, on behalf of the Congress, of a gold medal of appropriate design in commemoration to the members of the Office of Strategic Services (OSS), in recognition of their superior service and major contributions during World War II.

(b) DESIGN AND STRIKING.—For purposes of the presentation referred to in subsection (a), the Secretary of the Treasury (referred to in this Act as the "Secretary") shall strike a gold medal with suitable emblems, devices, and inscriptions, to be determined by the Secretary. Determination.

(c) SMITHSONIAN INSTITUTION.—

(1) IN GENERAL.—Following the award of the gold medal in commemoration to the members of the Office of Strategic Services under subsection (a), the gold medal shall be given to the Smithsonian Institution, where it will be displayed as appropriate and made available for research.

(2) SENSE OF CONGRESS.—It is the sense of Congress that the Smithsonian Institution should make the gold medal received under paragraph (1) available for display elsewhere, particularly at other appropriate locations associated with the Office of Strategic Services.

SEC. 4. DUPLICATE MEDALS.

The Secretary may strike and sell duplicates in bronze of the gold medal struck pursuant to section 3 under such regulations as the Secretary may prescribe, at a price sufficient to cover the cost thereof, including labor, materials, dies, use of machinery, and overhead expenses, and the cost of the gold medal.

SEC. 5. STATUS OF MEDALS.

(a) NATIONAL MEDALS.—The medals struck pursuant to this Act are national medals for purposes of chapter 51 of title 31, United States Code.

(b) NUMISMATIC ITEMS.—For purposes of section 5134 of title 31, United States Code, all medals struck under this Act shall be considered to be numismatic items.

Public Law 114–282
114th Congress

An Act

To require the Secretary of the Treasury to mint commemorative coins in recognition of the 50th anniversary of the first manned landing on the Moon.

Dec. 16, 2016
[H.R. 2726]

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,

Apollo 11 50th Anniversary Commemorative Coin Act. 31 USC 5112 note.

SECTION 1. SHORT TITLE.

This Act may be cited as the "Apollo 11 50th Anniversary Commemorative Coin Act".

SEC. 2. FINDINGS.

The Congress finds the following:

(1) On July 16, 1969, the Apollo 11 spacecraft launched from Launch Complex 39A at the John F. Kennedy Space Center carrying Neil Armstrong, Buzz Aldrin, and Michael Collins, who would become the first of mankind to complete a crewed lunar landing.

(2) The United States is the only country ever to have attempted and succeeded in landing humans on a celestial body off the Earth and safely returning them home, completing an unprecedented engineering, scientific and political achievement.

(3) The Apollo 11 mission, culminating in man's first steps on the Moon on July 20, 1969, honored the fallen astronauts of the Apollo 1 crew, whose innovative work and bravery will be remembered forever.

(4) Apollo 11 accomplished the national goal set forth in 1961 by President John F. Kennedy, who stated at Rice University the following year, "We choose to go to the Moon. We choose to go to the Moon in this decade and do the other things, not because they are easy, but because they are hard, because that goal will serve to organize and measure the best of our energies and skills, because that challenge is one that we are willing to accept, one we are unwilling to postpone, and one which we intend to win".

(5) At the height of the Cold War, the Apollo space program provided the United States and the free world with a powerful symbolic win, demonstrating the strength, ambition, and determination of the United States in technological and economic advancement, and securing our Nation's leadership in space for generations to come.

(6) The National Aeronautics and Space Administration's (referred to in this Act as "NASA") Marshall Space Flight Center in Huntsville, Alabama, designed, assembled, and tested the most powerful launch vehicle in history, the Saturn V

rocket, which was used for the Apollo missions in the 1960s and 1970s.

(7) The Saturn V weighed 6,200,000 pounds and generated 7,600,000 pounds of thrust, which NASA has equated to generating more power than 86 Hoover Dams.

(8) During the time period from 1969 through 1972, NASA completed eight Apollo missions and landed 12 men on the Moon. The 6 missions that landed on the Moon returned with a wealth of groundbreaking scientific data and over 800 pounds of lunar samples.

(9) An estimated 400,000 Americans contributed to the successful program that led to the lunar landing on July 20, 1969, including NASA scientists, engineers, astronauts, industry contractors and their engineering and manufacturing workforce, as well as the political leadership of Republicans and Democrats in Congress and the White House.

(10) The Apollo program, along with its predecessor Mercury and Gemini programs, inspired generations of American students to pursue careers in science, technology, engineering, and mathematics (STEM), which has fueled innovation and economic growth throughout a range of industries over the last four decades.

(11) July 20, 2019, will mark the 50th anniversary of the Apollo 11 landing of Neil Armstrong and Buzz Aldrin on the lunar surface.

SEC. 3. COIN SPECIFICATIONS.

SEC. 4. DESIGN OF COINS.

(a) IN GENERAL.—The design for the coins minted under this Act shall be—

(c) SELECTION AND APPROVAL PROCESS FOR OBVERSE DESIGN.—

(1) IN GENERAL.—The Secretary shall hold a juried, compensated competition to determine the design of the common obverse of the coins minted under this Act, with such design being emblematic of the United States space program leading up to the first manned Moon landing.

(2) SELECTION PROCESS.—Proposals for the obverse design of coins minted under this Act may be submitted in accordance with the design selection and approval process developed by the Secretary in the sole discretion of the Secretary.

(3) PROPOSALS.—As part of the competition described in this subsection, the Secretary may accept proposals from artists, engravers of the United States Mint, and members of the general public, and any designs submitted for the design review process described herein shall be anonymized until a final selection is made.

(4) COMPENSATION.—The Secretary shall determine compensation for the winning design under this subsection, which shall be not less than $5,000. Determination.

(d) REVERSE DESIGN.—The design on the common reverse of the coins minted under this Act shall be a representation of a

close-up of the famous "Buzz Aldrin on the Moon" photograph taken July 20, 1969, that shows just the visor and part of the helmet of astronaut Buzz Aldrin, in which the visor has a mirrored finish and reflects the image of the United States flag and the lunar lander and the remainder of the helmet has a frosted finish.

SEC. 5. ISSUANCE OF COINS.

(a) QUALITY OF COINS.—Except with respect to coins described under section 3(a)(4), coins minted under this Act shall be issued in uncirculated and proof qualities.

(b) PERIOD FOR ISSUANCE.—The Secretary may issue coins minted under this Act only during the 1-year period beginning on January 1, 2019.

The Secretary of the Treasury may issue guidance to carry out this subsection.

SEC. 8. FINANCIAL ASSURANCES.

The Secretary shall take such actions as may be necessary to ensure that—

(1) minting and issuing coins under this Act will not result in any net cost to the United States Government; and

(2) no funds, including applicable surcharges, are disbursed to any recipient designated in section 7 until the total cost of designing and issuing all of the coins authorized by this Act (including labor, materials, dies, use of machinery, winning design compensation, overhead expenses, marketing, and shipping) is recovered by the United States Treasury, consistent with sections 5112(m) and 5134(f) of title 31, United States Code.

Public Law 114–308

An Act

Dec. 16, 2016
[H.R. 6130]

To provide the victims of Holocaust-era persecution and their heirs a fair opportunity to recover works of art confiscated or misappropriated by the Nazis.

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,

Holocaust Expropriated Art Recovery Act of 2016.
22 USC 1621 note.

SECTION 1. SHORT TITLE.

This Act may be cited as the "Holocaust Expropriated Art Recovery Act of 2016".

SEC. 2. FINDINGS.

Congress finds the following:

(1) It is estimated that the Nazis confiscated or otherwise misappropriated hundreds of thousands of works of art and other property throughout Europe as part of their genocidal campaign against the Jewish people and other persecuted groups. This has been described as the "greatest displacement of art in human history".

(2) Following World War II, the United States and its allies attempted to return the stolen artworks to their countries of origin. Despite these efforts, many works of art were never reunited with their owners. Some of the art has since been discovered in the United States.

(3) In 1998, the United States convened a conference with 43 other nations in Washington, DC, known as the Washington Conference, which produced Principles on Nazi-Confiscated Art. One of these principles is that "steps should be taken expeditiously to achieve a just and fair solution" to claims involving such art that has not been restituted if the owners or their heirs can be identified.

(4) The same year, Congress enacted the Holocaust Victims Redress Act (Public Law 105–158, 112 Stat. 15), which expressed the sense of Congress that "all governments should undertake good faith efforts to facilitate the return of private and public property, such as works of art, to the rightful owners in cases where assets were confiscated from the claimant during the period of Nazi rule and there is reasonable proof that the claimant is the rightful owner.".

(5) In 2009, the United States participated in a Holocaust Era Assets Conference in Prague, Czech Republic, with 45 other nations. At the conclusion of this conference, the participating nations issued the Terezin Declaration, which reaffirmed the 1998 Washington Conference Principles on Nazi-Confiscated Art and urged all participants "to ensure that their legal systems or alternative processes, while taking into account the

different legal traditions, facilitate just and fair solutions with regard to Nazi-confiscated and looted art, and to make certain that claims to recover such art are resolved expeditiously and based on the facts and merits of the claims and all the relevant documents submitted by all parties.". The Declaration also urged participants to "consider all relevant issues when applying various legal provisions that may impede the restitution of art and cultural property, in order to achieve just and fair solutions, as well as alternative dispute resolution, where appropriate under law.".

(6) Victims of Nazi persecution and their heirs have taken legal action in the United States to recover Nazi-confiscated art. These lawsuits face significant procedural obstacles partly due to State statutes of limitations, which typically bar claims within some limited number of years from either the date of the loss or the date that the claim should have been discovered. In some cases, this means that the claims expired before World War II even ended. (See, e.g., Detroit Institute of Arts v. Ullin, No. 06–10333, 2007 WL 1016996 (E.D. Mich. Mar. 31, 2007).) The unique and horrific circumstances of World War II and the Holocaust make statutes of limitations especially burdensome to the victims and their heirs. Those seeking recovery of Nazi-confiscated art must painstakingly piece together their cases from a fragmentary historical record ravaged by persecution, war, and genocide. This costly process often cannot be done within the time constraints imposed by existing law.

(7) Federal legislation is needed because the only court that has considered the question held that the Constitution prohibits States from making exceptions to their statutes of limitations to accommodate claims involving the recovery of Nazi-confiscated art. In Von Saher v. Norton Simon Museum of Art, 592 F.3d 954 (9th Cir. 2009), the United States Court of Appeals for the Ninth Circuit invalidated a California law that extended the State statute of limitations for claims seeking recovery of Holocaust-era artwork. The Court held that the law was an unconstitutional infringement of the Federal Government's exclusive authority over foreign affairs, which includes the resolution of war-related disputes. In light of this precedent, the enactment of a Federal law is necessary to ensure that claims to Nazi-confiscated art are adjudicated in accordance with United States policy as expressed in the Washington Conference Principles on Nazi-Confiscated Art, the Holocaust Victims Redress Act, and the Terezin Declaration.

(8) While litigation may be used to resolve claims to recover Nazi-confiscated art, it is the sense of Congress that the private resolution of claims by parties involved, on the merits and through the use of alternative dispute resolution such as mediation panels established for this purpose with the aid of experts in provenance research and history, will yield just and fair resolutions in a more efficient and predictable manner.

SEC. 3. PURPOSES.

The purposes of this Act are the following:

(1) To ensure that laws governing claims to Nazi-confiscated art and other property further United States policy as set forth in the Washington Conference Principles on Nazi-

Confiscated Art, the Holocaust Victims Redress Act, and the Terezin Declaration.

(2) To ensure that claims to artwork and other property stolen or misappropriated by the Nazis are not unfairly barred by statutes of limitations but are resolved in a just and fair manner.
