PRA Disclosure Statement

According to the Paperwork Reduction Act of 1995, no persons are required to respond to a collection of information unless it displays a valid OMB control number. The valid OMB control number for this information collection is **0938-1164**. The time required to complete this information collection is estimated to average 64 hours or 3,840 minutes per response, including the time to review instructions, search existing data resources, gather the data needed and complete and review the information collection. If you have comments concerning the accuracy of the time estimate(s) or suggestions for improving this form, please write to: CMS, 7500 Security Boulevard, Attn: PRA Reports Clearance Officer, Mail Stop C4-26-05, Baltimore, Maryland 21244-1850.

INSTRUCTIONS FOR THE 2012 MLR REPORTING YEAR

This filing is the report to the Secretary required by section 2718 of the Public Health Service Act (PHS Act), including the elements that make up the medical loss ratio and calculation and provision of rebates to enrollees. The data included in this MLR Annual Reporting Form (MLR Form) are the exact data # ☐ # # # # ☐ # ☐ # # # section 2718 of the PHS Act and the implementing regulation, codified at 45 CFR Part 158.

The MLR implementing regulations can be found at:

<http://www.cciio.cms.gov/resources/regulations/index.html#mlr>.

The annual MLR Form Filing Instructions only apply to the 2012 MLR reporting year and its reporting requirements. These Filing Instructions will be revised to reflect changes that apply to the filing years subsequent to 2012. Filing will require a one-time registration by the issuer, with the CMS Health Insurance Oversight System (HIOS) to submit its report to the Secretary. If an issuer registered for the MLR module in HIOS for the 2011 MLR reporting year, it does not need to reregister, but will need to confirm or update its issuer associations.

References are made in these instructions to the National Association of Insurance Commissioners (NAIC) Statements of Statutory Accounting Principles (SSAP) and Supplemental Health Care Exhibit (SHCE) (as filed by many issuers with the NAIC) in effect for the MLR reporting year. These references are solely for the convenience of the filer in identifying the information needed for this MLR Form.

These Filing Instructions are to be used in completing the MLR Form by all health insurance issuers (issuers) offering health insurance coverage subject to section 2718 of the PHS Act and the MLR implementing regulations. All terms used in these Filing Instructions that are not defined here have the meaning used in 45 CFR Part 158 and the PHS Act.

health insurance coverage means benefits consisting of medical care (provided directly, through insurance or reimbursement, or otherwise and including items and services paid for as medical care) under any hospital or medical service policy or certificate, hospital or medical service plan contract, or health maintenance organization contract offered by a health insurance issuer. The definition includes any insurance product, such as drug, chiropractic, or mental health coverage, whether sold as a stand-alone product or in conjunction with any other health insurance coverage, unless specifically # excepted benefits by the PHS Act.

An MLR Form must be prepared and submitted for each State in which the issuer has written direct health insurance coverage or has direct amounts paid, incurred or unpaid for the provision of health care services. (Note: The experience of expatriate plans is aggregated on a national basis, and for the 2012 MLR reporting year should be reported only in the 12/31 column of Parts 1 and 2 of the # Total ☐ Expatriate experience should not be reported in Parts 4, 5 or 6 of the MLR Form. See Changes to the 2012 MLR Annual Reporting Form, below.) In addition, a schedule must be prepared and submitted that contains the grand total (GT) for the issuer. An issuer required to file the MLR Form must complete Parts 1 and 2 for each State in which the issuer provides any health insurance coverage, even if a particular State will show \$0 earned premium in Part 1 (see the 2% instruction below). Also, Parts 4 through 6 must be completed for any State in which there are non-zero amounts in Part 1. # ☐ # ☐ # ☐ ☐

CHANGES TO THE 2012 MLR ANNUAL REPORTING FORM

In order to simplify the MLR annual reporting process and MLR Form, several changes have been made to the Excel workbook since the 2011 MLR reporting year. Some additional changes have been made to incorporate changes in 45 CFR Part 158 that are effective for the 2012 MLR reporting year. Below are the most significant changes.

No Calculated Fields: No fields or cells in the 2012 MLR Form that are for user input or calculations are locked or contain automatic calculations.. This should make it easier for an issuer to automate its internal process for submitting the MLR annual report for multiple states.

Dual Contracts columns: To increase clarity and transparency, columns were added for dual contract information with affiliates, as a subset of the data reported in the 3/31 columns.

Separation of Parts 1 and 2: For the 2011 MLR reporting year, Parts 1 and 2 were included on the same worksheet within the workbook. For the 2012 reporting year, Parts 1 and 2 each has its own worksheet. Part 1 is Data Development Summary of Data and Part 2 is Data Development Premium and Claims.

Expatriate Plans: For the 2012 MLR reporting year, expatriate plans are considered compliant with MLR requirements (see [Affordable Care Act Implementation FAQs Set 13](#) published March 8, 2013). For the 2012 MLR reporting year, issuers with *only* expatriate business are not required to file an MLR Form. Issuers with health insurance coverage in other markets should report their expatriate experience only in the 12/31 column of Parts 1 and 2 of # # page of the MLR Form, and leave all other expatriate columns in the MLR Form blank.

Removal of Part 3 Expense Allocation Report: For the 2011 MLR reporting year, issuers completed Part 3 Expense Allocation Report, and the corresponding cells of Part 1 were pre- # # # # # # # # Part 3 has been eliminated and issuers will only enter the expense amounts into the appropriate cells of Parts 1.

Renumbering of Reports: Since the Part 3 Expense Allocation Report has been removed, the remainder of the MLR Form has been renumbered. For the 2012 MLR reporting year, Part 3 is the Expense Allocation Methodology Report, Part 4 is the MLR and Rebate Calculation Report, Part 5 is the Rebate Disbursement Report and Part 6 requests some additional information to explain some of the data submitted.

Part 6 Additional Responses: A worksheet has been added to the 2012 MLR Form to further clarify and describe some of the data reported in other parts of the MLR Form.

Formulas: Since the workbook will no longer automatically calculate any fields, tools will be provided to inform issuers about key data calculations related to MLR reporting. These tools will be available through the HIOS MLR module and on the CCIIO website.

GENERAL INSTRUCTIONS

Reinsurance

Experience under a 100% assumption reinsurance agreement (with a novation) must be reported by the assuming issuer as direct business, for the entire MLR reporting year during which the policies are assumed and must not be reported by the ceding issuer.

Reporting of 100% indemnity reinsurance and administrative agreements is limited to those agreements both entered into and effective prior to March 23, 2010, where the assuming entity ☐ ☐ ☐ # # # # on all of the administration of the block of business. Experience under those indemnity reinsurance and administrative agreements must be reported by the assuming issuer as direct business, and must not be reported by the ceding issuer.

If a reinsurance arrangement does not meet the exact criteria specified in the two preceding paragraphs, the experience under that reinsurance arrangement must be reported by the ceding issuer and not by the assuming issuer.

Closed Blocks of Business

Section 2718 of the Public Service Health Act requires all health insurance issuers offering health insurance coverage to submit an MLR report. CMS will use its enforcement discretion and will not initiate an enforcement action if an issuer of group or individual health insurance coverage fails to submit a full MLR report and its only health insurance coverage exists in grandfathered plans in small closed blocks. To qualify for this limited exception, the issuer CFO and CEO must attest to and provide the following information regarding the applicable MLR reporting year:

1. The issuer has ceased offering health insurance coverage, as defined by §2791(b)(1) of the Public Service Health Act, in the small group, large group, and individual health insurance markets in every state in which it is licensed to offer health insurance coverage;
2. The issuer has only grandfathered health plans (as defined in 45 CFR §147.140(a)) in closed blocks of business that are in run-off;
3. The issuer did not submit a Supplemental Health Care Exhibit (SHCE) or other similar state filing for business during the applicable MLR reporting year, has been exempted from filing a SHCE or similar state filing by the state in which it is domiciled, and submits to CMS evidence of this exemption on state letterhead. If the issuer is not subject to a SHCE or similar state filing requirement, this criterion is not applicable;
4. The issuer has less than 1,000 life years nationwide (combined for all health insurance coverage) for the MLR reporting year.
5. The issuer has non-credible experience in each state market in which it provides coverage. The issuer must report the number of life-years in each state market for each MLR reporting year that is aggregated to determine whether the issuer has non-credible experience. For example, an issuer with 700 life-years in the 2011 MLR reporting year and 600 life-years in the 2012 MLR reporting year for the same state market would be partially credible in the 2012 MLR reporting year. (45 CFR §158.230 and 158.231.)

Like all issuers that are subject to the MLR reporting requirements, a company that meets all of the criteria described above must register with the MLR module of the Oversight System (HIOS), and complete, update or confirm the form in HIOS. A company that meets all of the above criteria may download the MLR reporting form from HIOS, it may complete only Part 4, Line 3.1 of the MLR reporting form for every State and market in which it has health insurance coverage. The company should use the described above. The company should also upload any State Supplemental Health Care Exhibit (or other similar State required filing) exemption it has received from its State of domicile. The company should then complete the HIOS attestation process.

Issuers satisfying the above criteria may instead choose to complete the full MLR form for their grandfathered plans in closed blocks of business. The option described in this closed block of business policy is intended reduce MLR reporting requirements.

If CMS determines that an issuer does not satisfy the criteria described above, CMS will notify the issuer that it must complete the full MLR reporting form as specified in 45 CFR Part 158.

Aggregate 2% Rule

If, for any aggregation as defined in 45 CFR §158.120, 50% or more of the total earned premium for an MLR reporting year is attributable to newly issued policies with less than 12 months of experience in that MLR reporting year, then the experience of these policies may be deferred, at the option of the issuer. If an issuer defers the reporting of newer business as provided in this paragraph, then the experience of such policies must be excluded from the MLR reporting year in which it occurred and must be added to the experience reported in the following MLR reporting year.

Deferred Business

If, for any aggregation as defined in 45 CFR §158.120, 50% or more of the total earned premium for an MLR reporting year is attributable to newly issued policies with less than 12 months of experience in that MLR reporting year, then the experience of these policies may be deferred, at the option of the issuer. If an issuer defers the reporting of newer business as provided in this paragraph, then the experience of such policies must be excluded from the MLR reporting year in which it occurred and must be added to the experience reported in the following MLR reporting year.

Allocation of Expenses

Each expense must be reported under only one type of expense, unless a portion of the expense fits under the definition of or criteria for one type of expense and the remainder fits into a different type of expense, in which case the expense must be pro-rated between the two (or more) types of expenses. Expenditures that benefit more than one affiliate may be allocated, on a pro rata basis, between the affiliates that benefit from these expenditures. Expenditures that benefit all lines of business or products, including but not limited to those that are for or benefit self-funded plans, must be reported on a pro rata basis.

Aggregation of Experience

, aggregated by individual, small group and large group markets, with respect to each policy must be included on the report submitted with respect to the State where the policy was issued, except as specified below.

Group Coverage in Multiple States:

Group coverage issued by a single issuer to an employer that covers employees in multiple States must be reported for the State where the contract is situated. Situs of the contract is the jurisdiction in which the contract is issued or delivered, as stated in the contract.

Dual-Contract Group Health Coverage:

If an issuer has a group health plan which provides coverage for in-network coverage only and an affiliate issuer provides only out-of-network coverage solely for the purpose of providing a group health plan that offers both in-network and out-of-network benefits, the issuer *may choose* to treat the out-of-network experience of the affiliate that provides the out-of-network coverage as if it were related to the contract providing the in-network coverage. If an issuer chooses this method of aggregation, it must do so for a minimum of three consecutive reporting years and the affiliate that provides the out-of-network coverage must not report this experience. After an issuer applies this method for the initial three consecutive reporting years, the issuer may either continue to apply this method for any number of additional consecutive reporting years, or may choose to discontinue applying this method.

Individual Business through an Association:

For individual business sold through an association, the issuer shall include the experience in the State report for the issue State of the certificate of coverage.

Employer Business through Group Trust, Association or MEWA:

For employer business issued through a group trust, the issuer shall include the experience in the State report for the State where the employer has its principal place of business. For employer business issued through a multiple employer welfare association (MEWA), the issuer shall include the experience in the State report for the State where the MEWA has its principal place of business (if the MEWA is the policyholder). For employer business issued through a non-MEWA association, experience with respect to each employer shall be reported as large group or small group based on the size of each employer and be reported in each State based upon the aggregation rules for employer based insurance.

Definition of Small Group and Large Group:

The large group and small group markets are defined as those where health insurance coverage is obtained by a large or small employer, respectively. Large employer and small employer are defined by the number of employees employed; a small employer has 1 to 100 employees, but if a State uses ☐ # ☐ # ☐ # ☐ # substituted ☐ ☐ ☐ ☐ # ☐ proprietor's spouse is ☐ ☐ # ☐ ☐ ☐ ☐ averaging the total number of all employees employed on business days during the preceding calendar year. This includes each full-time, part-time and seasonal employee.

An issuer must report on this MLR Form only the business issued by the reporting entity. Business that is written by an unaffiliated entity as part of a package provided to the enrollee (e.g., inpatient

coverage written by the reporting entity, outpatient coverage written by an unaffiliated separate entity) ***must not*** be included in this MLR Form.

For those issuers of health insurance coverage in Massachusetts individual and small group markets that ☐ ☐ ☐ # # ☐ # # # # #

Merged Markets Indv/SmGrp (MA only) box at the top of the MLR Form. Please report all experience separately for the individual and small group markets, and combine it only in MLR numerator and denominator fields (Part 4 Lines 1.5 and 2.3).

Health Insurance Coverage:

Do not include health insurance coverage specifically not subject to section 2718 of the PHS Act, such as government-sponsored programs, (e.g., Medicare (Title XVIII, including Medicare Advantage),

☐ # # other

Federal or State government-sponsored coverage (other than the Federal Employees Health Benefits Program or State government sponsored coverage for State employees or retirees), or uninsured business. Stop (or excess) loss coverage for self-insured groups should be reported in Parts 1 and 2 Other Health Business (business excluded by statute).

COLUMN DEFINITIONS FOR MEDICAL LOSS RATIO ANNUAL REPORTING FORM PARTS 1 AND 2

The annual MLR Form Filing Instructions only apply to the 2012 MLR reporting year and its reporting requirements. These Filing Instructions will be revised to reflect changes that apply to the filing years subsequent to 2012.

Health insurance coverage, Columns 1 through 34, includes policies that provide medical coverage, including office visits, hospital, surgical and major medical (illness and injury). Include risk contracts and the Federal Employees Health Benefit Plan (FEHBP). Exclude mini-med plans and expatriate plans from Columns 1 through 15 since they are reported separately. Mini-med plan experience is reported in Columns 16-24 of each State MLR Form. Columns 25-34 on the MLR Form are labeled for expatriate plan experience. However, for the 2012 MLR reporting year, *expatriate plans should be reported only in the 12/31 columns (Columns 25 and 30) of Parts 1 and 2 of the "Grand Total" page of the MLR Form and all other expatriate columns in the MLR Form should be left blank.*)

The experience of expatriate plans is aggregated on a national basis.

Do not include in Columns 1-34 business specifically included in Columns 35-38 (e.g., uninsured or self-funded business, Medicare (Title XVIII, including Medicare Advantage), Medicaid (Title XIX), ☐ ☐ # ☐ # ☐ # ☐ # ce Program (SCHIP) (Title XXI), other Federal or State government-sponsored coverage (other than the Federal Employees Health Benefits Program or State government sponsored coverage for State employees or retirees), and short-term, limited duration insurance as further defined in the PHS Act). The experience for pharmacy, chiropractic, or mental health coverage, whether sold as a stand-alone product or in conjunction with any other health insurance coverage, should be reported with the health insurance coverage for the applicable market, as these are not excepted benefits under the PHS Act.

The experience of stop loss or excess of loss coverage for self-funded groups should be reported in Parts 1 and 2, Column 36 Other Health Business Plans (business excluded by statute). Column 36 includes information reported in Column 11 of the SHCE.

However, an issuer must separately report that # # ☐ as required by 45 CFR Part 158 and as instructed in the MLR Form instructions. For example, an issuer may not need to report the amount of contingent benefit and lawsuit reserves in Part 2 Line 2.13 in the ☐ ☐ # ☐ ☐ An issuer must still report, in the detail provided by the MLR form, the amounts for premiums and unearned premium reserves, taxes and fees, claims and claims-related reserves, quality improving activities, and non-claims costs, in ☐ # ☐ ☐ # ☐ ☐ regulatory authority.

Columns 1, 6, 11, 16, 19, 22, 25, 30, 35, 36, 37, and 38 **Business as of 12/31 of the MLR reporting year**

Financial information reported for the 12/31 columns are to equal the exact amounts that were reported directly to the State regulatory authority of the issuer, including amounts that may

have been amended in the SHCE the issuer submitted to the NAIC prior to filing the 2012 MLR Form.

Include: Experience of policies in each of the relevant markets for the MLR reporting year, as reported as of December 31, to the department of insurance in the State of domicile or as filed on the NAIC SHCE filing for the MLR reporting year regardless of incurred date.

For any data element that is not separately reported in the NAIC SHCE or separately reported elsewhere to the # ☐ # ☐ # ☐ ☐ # ☐ ☐ # ☐ ☐ ne ☐ ## ☐ # ☐ ☐ MLR Form. However, an ## ☐ ☐ ## ☐ # ☐ Part 158 and as instructed in the MLR Form Instructions.

Columns 2, 7, 12, 17, 20, 23 **Business as of 3/31 of subsequent MLR reporting year**

(Note: Columns 26 and 31 are labeled for expatriate experience, but for the 2012 MLR reporting year should be left blank.)

Financial Information reported in the 3/31 columns should equal the amount of each element related specifically to experience in the 2012 MLR reporting year and paid through March 31 of the subsequent reporting year (incurred in 12, paid or received in 15), plus any provision for items properly allocable to the 2012 MLR reporting year but not yet paid as of 3/31 of the following year. For example, these columns could include differences from the 12/31 columns in the upper limit for a small group and the lower limit for a large group, if state group size regulations differ from federal group size regulations. (See the Definitions of Small Group and Large Group, in the General Instructions above.) If the issuer elects to treat the out-of-network experience of an affiliate that provides the out-of-network coverage as if it were related to the contract providing the in-network coverage, the issuer must include such out-of-network experience in the 3/31 columns, as well as separately report it in the Dual Contract columns (see the column definition below).

Include: Experience of policies in each market, incurred, paid or received relevant only to the MLR reporting year, reported as of March 31 of the subsequent MLR reporting year.

Columns 3, 8, 13, 18, 21, 24 **Dual Contract**

(Note: Columns 27 and 32 are labeled for expatriate experience, but for the 2012 MLR reporting year should be left blank.)

Include: Experience reported in columns 2, 7, 12, 17, 20, and 23 that is attributable to dual contracts. Note that these amounts are a *subset* of what is reported in columns 2, 7, 12, 17, 20, and 23.

The issuer may choose to treat the out-of-network experience of an affiliate that provides the out-of-network coverage as if it were related to the contract providing the in-network coverage.

Line 1.6 Risk revenue

Include: Amounts charged by the reporting entity as a provider or intermediary for specified medical services (e.g., full professional, dental, radiology, etc.) provided to the policyholders or members of another issuer or reporting entity.

Unlike premiums that are collected from an employer group or individual member, risk revenue is the prepaid (usually on a capitated basis) payment, made by another insurer or reporting entity to the reporting issuer in exchange for services to be provided or offered by such organization.

Section 2 Claims

Line 2.1 Total incurred claims

From MLR Form, Part 2 Line 2.16 (all columns)

(Note: In the 2011 MLR reporting form, Part 1 Line 2.1 was equal to Total adjusted incurred claims, which included Allowable fraud reduction expense. The 2012 MLR reporting form Part 1 Line 2.1 is Total incurred claims, which does not include Allowable fraud reduction expense. Allowable fraud reduction expense is accounted for in calculating Adjusted incurred claims in Part 4.)

Line 2.2 Prescription drugs - (informational only)

Include: Expenses for prescription drugs and other pharmacy benefits covered by the reporting entity.

Exclude: Prescription drug charges that are included in a hospital billing which should be classified as Hospital/Medical Benefits.

Line 2.3 Pharmaceutical rebates - (informational only)

Line 2.4 State stop loss, market stabilization and claim/census based assessments (Informational only)

Adjustments that must be included in incurred claims:

- Market stabilization payments or receipts by issuers that are directly tied to claims incurred and other claims-based or census-based assessments;
- State subsidies based on a stop-loss payment methodology.

Adjustments that must be either included in or deducted from incurred claims:

- Payment to and from unsubsidized State programs designed to address distribution of health risks across issuers via charges to low risk issuers that are distributed to high risk issuers must be included in or deducted from incurred claims, as applicable.

Line 2.5 Net assumed less ceded claims incurred

Assumed reinsurance claims paid; plus the change in the assumed reinsurance claims liability and aggregate assumed reinsurance claims reserve; less the ceded reinsurance claims paid; plus the change in the ceded reinsurance claims liability and aggregate ceded reinsurance claims reserve; less the change in claims related reinsurance recoverable.

Line 2.6 Other adjustments due to MLR calculation claims incurred

Any amounts excluded from claims for MLR calculation purposes that are normally included in claims for financial statement purposes. For example, premium deficiency reserves are excluded from contract reserves for MLR purposes in Part 2; thus, premium deficiency reserves would be included on this Line. Include the adjustment for multi-option coverage amounts (if offsetting Part 2, Line 2.15 report as a negative amount).

Line 2.7 Rebates paid

MLR rebates paid during the MLR reporting year.

Line 2.8 Estimated rebates unpaid at the end of the prior MLR reporting year.

Amount should equal Line 2.9 from the prior year MLR reporting form.

Line 2.9 Estimated rebates unpaid at the end of the MLR reporting year

MLR rebates estimated but unpaid as of the end of the MLR reporting year.

Line 2.10 Fee-for-service and co-pay revenue (net of expenses)

Include: Revenue recognized by the issuer for collection of co-payments from members and revenue derived from health services rendered by reporting entity providers that are not included in member policies (generally only applicable to staff-model HMOs).

Deduct: Medical expenses associated with fee-for-service business.

Section 3 Federal and State Taxes and Licensing or Regulatory Fees

Line 3.1 Federal taxes and assessments incurred by the reporting issuer during the MLR reporting year

3.1a Federal income taxes deductible from premiums in MLR calculations

Include: All federal income taxes allocated to the respective lines of business reported.

Exclude: Federal income taxes on investment income and capital gains.

3.1b Federal taxes (other than income taxes) and assessments deductible from premium in MLR calculations:

Include:

Include: All federal taxes and assessments (other than income taxes) allocated to the respective lines of business reported.

Exclude: Fines and penalties of regulatory authorities, and fees for examinations by any Federal departments other than as specified in 45 CFR §158.161(a) as other non-claims costs, which are not included as an adjustment to premium revenue.

Line 3.2 State insurance, premium and other taxes incurred by the reporting issuer during the MLR reporting year (deductible from premium in MLR calculation).

3.2a State income, excise, business, and other taxes, allocated to the respective lines of business reported, that may be excluded from earned premium under 45 CFR §158.162(b)(1).

Include:

- Any industry wide (or subset) assessments (other than surcharges on specific claims) paid to the State directly, or premium subsidies that are designed to cover the costs of providing indigent care or other access to health care throughout the State, or market stabilization redistributions, or cost transfers for the purpose of rate subsidies, not directly tied to claims, and that are authorized by state law.
- Guaranty fund assessments
- Assessments of State industrial boards or other boards for operating expenses or for benefits to sick employed persons in connection with disability benefit laws or similar taxes levied by States
- Advertising required by law, regulation or ruling, except advertising associated with investments
- State income, excise, and business taxes other than premium taxes

3.2b State premium taxes

Include:

- State premium taxes or State taxes based on policy reserves if in lieu of premium taxes related to the respective lines of business reported.

3.2c Community benefit expenditures deductible from premium in MLR calculations

Include: Payments by an issuer for community benefit expenditures (CBE)** (described below in these Filing Instructions), limited to the highest health insurance coverage premium tax rate applicable in the State for which the report is being submitted multiplied by the earned premium allocated to the relevant State market.

NOTE: The expenditures in lines 3.1a, 3.1b, 3.2a, 3.2b, and 3.2c may not be reported multiple times or in multiple categories. For example, if an expense is reported in Line 3.2c, the Federal or State assessments may not be included in Lines 3.1a, 3.1b, 3.2a, 3.2b or in the quality improvement expenses reported in Lines 4.1 through 4.6.

**Community benefit expenditures are for activities or programs that seek to achieve the objectives of improving access to health services, enhancing public health and relief of government burden. This includes activities that:

- Are available broadly to the public and serve low-income consumers;
- Reduce geographic, financial or cultural barriers to accessing health services, and if ceased to exist would result in access problems (e.g., longer wait times or increased travel distances);
- Address federal, state or local public health priorities, such as advancing health care knowledge through education or research that benefits the public;
- Leverage or enhance public health department activities, such as childhood immunization efforts; or
- Otherwise would become the responsibility of government or another tax-exempt organization.

Line 3.3 Regulatory authority licenses and fees incurred by the reporting issuer during the MLR reporting year.

Include: Statutory assessments to defray operating expenses of any State or Federal regulatory department, and examination fees in lieu of premium taxes as specified by State law.

Exclude: Fines and penalties of regulatory authorities, and any fees for examinations by any State or Federal regulatory departments other than as specifically included in this Line 3.3.

Section 4 - Health Care Quality Improvement Expenses Incurred

Expenses for Quality Improvement (QI) activities are expenditures for activities conducted by an issuer that are designed to:

- Improve health quality;
- Increase the likelihood of desired health outcomes in ways that are capable of being objectively measured and of producing verifiable results and achievements;
- Be directed toward individual enrollees or incurred for the benefit of specified segments of enrollees or provide health improvements to the population beyond those enrolled in coverage as long as no additional costs are incurred due to the non-enrollees; and,
- Be grounded in evidence-based medicine, widely accepted best clinical practice, or criteria issued by recognized professional medical associations, accreditation bodies, government agencies or other nationally recognized health care quality organizations.

QI activities must be primarily designed to:

- Improve health outcomes including increasing the likelihood of desired outcomes compared to a baseline and reduce health disparities among specified populations;
- Prevent hospital readmissions through a comprehensive program for hospital discharge;
- Improve patient safety, reduce medical errors and lower infection and mortality rates;
- Implement, promote, and increase wellness and health activities; or
- Enhance the use of health care data to improve quality, transparency, and outcomes and support meaningful use of health information technology consistent with 45 CFR §158.151.

Expenditures and activities that must not be included in quality improving activities are:

- Those that are designed primarily to control or contain costs;
- The pro rata share of expenses that are for lines of business or products other than those

- being reported, including but not limited to, those that are for or benefit self-funded plans;
- Those which otherwise meet the definitions for quality improvement activities but which were paid for with grant money or other funding separate from premium revenue;
 - Those activities that can be billed or allocated by a provider for care delivery and which are, therefore, reimbursed as clinical services;
 - Establishing or maintaining a claims adjudication system, including costs directly related to upgrades in health information technology that are designed primarily or solely to improve claims payment capabilities or to meet regulatory requirements for processing claims, including maintenance of ICD-10 code sets adopted pursuant to the Health Insurance Portability and Accountability Act (HIPAA), 42 U.S.C. 1320d-2, as amended, and ICD-10 implementation costs in excess of 0.3% of earned premium;
 - That portion of the activities of health care professional hotlines that does not meet the definition of activities that improve health quality;
 - All retrospective and concurrent utilization review;
 - Fraud prevention activities;
 - The cost of developing and executing provider contracts and fees associated with establishing or managing a provider network, including fees paid to a vendor for the same reason;
 - Provider credentialing;
 - Marketing expenses;
 - Costs associated with calculating and administering individual enrollee or employee incentives;
 - That portion of prospective utilization that does not meet the definition of activities that improve health quality;
 - Any function or activity not expressly included in Lines 4.1 through 4.6, unless otherwise approved by and within the discretion of the Secretary, upon adequate showing by the issuer
- # # ☐ ☐ ☐ # ☐ # ☐ ☐ ☐
- monitoring, measuring or reporting health care quality improvement.

Expenses which otherwise meet the definition for QI activities but which were paid for with grant money or other funding separate from premium revenues shall NOT be included in QI activities expenses.

Notes:

- Healthcare Professional Hotlines:** Expenses for healthcare professional hotlines should be included in Claims Adjustment Expenses to the extent they do not meet the criteria for the above defined columns of Improve Health Outcomes, Prevent Hospital Readmissions, Improve Patient Safety, Reduce Medical Errors, and Lower Infection and Mortality Rates, and Implement, Promote, and Increase Wellness & Health Activities.
- Prospective Utilization Review:** Expenses for prospective Utilization Review should be included in Claims Adjustment Expenses to the extent they do not meet the criteria for the above defined columns of Improve Health Outcomes, Prevent Hospital Readmissions, Improve Patient Safety, Reduce Medical Errors, and Lower Infection and Mortality Rates, and Implement, Promote, and Increase Wellness & Health Activities, AND the prospective utilization review activities are not conducted in accordance with a program that has been accredited by a recognized accreditation body.

Line 4.1 Improve Health Outcomes

Include expenses for the direct interaction of the insurer (including those services delegated by contract for which the insurer retains ultimate responsibility under the insurance policy),
□ # □ □ □ # , face-to-face, telephonic, web-based interactions or other means of communication) to improve health outcomes.

This category can include costs for associated activities such as:

- Effective case management, care coordination, and chronic disease management, including through the use of the medical homes model as defined in section 3606 of the Affordable Care Act.
- Accreditation fees by a nationally recognized accrediting entity directly related to quality of care activities included in Lines 4.1 through 4.6;
- Expenses associated with identifying and addressing ethnic, cultural or racial disparities in effectiveness of identified best clinical practices and evidence based medicine;
- Quality reporting and documentation of care in non-electronic format.

Line 4.2 Activities to Prevent Hospital Readmission

Include expenses for implementing activities to prevent hospital readmissions.

This category can include costs for associated activities such as:

- Comprehensive discharge planning (e.g., arranging and managing transitions from one setting to another, such as hospital discharge to home or to a rehabilitation center) in order to help assure appropriate care that will, in all likelihood, avoid readmission to the hospital;
- Personalized post discharge counseling by an appropriate health care professional;
- Any quality reporting and related documentation in non-electronic form for activities to prevent hospital readmission.

Line 4.3 Improve patient safety and reduce medical errors

Include expenses for activities primarily designed to improve patient safety, reduce medical errors, and lower infection and mortality rates.

This category can include costs for associated activities such as:

- The appropriate identification and use of best clinical practices to avoid harm;
- Activities to identify and encourage evidence based medicine in addressing independently identified and documented clinical errors or safety concerns;
- Activities to lower risk of facility acquired infections;
- Prospective prescription drug utilization review aimed at identifying potential adverse drug interactions;
- Any quality reporting and related documentation in non-electronic form for activities that improve patient safety and reduce medical errors.

Line 4.4 Wellness and health promotion activities

Include expenses for activities primarily designed to implement, promote, and increase wellness and health activities.

This category can include costs for associated activities such as:

- Wellness assessment;

- Wellness/lifestyle coaching programs designed to achieve specific and measurable improvements;
- Coaching programs designed to educate individuals on clinically effective methods for dealing with a specific chronic disease or condition;
- Public health education campaigns that are performed in conjunction with state or local health departments;
- Actual rewards/incentives/bonuses/reductions in co-pays, etc. (not administration of these programs) that are not already reflected in premiums or claims should be allowed as QI activities for the group market to the extent permitted by section 2705 of the PHS Act;
- Any quality reporting and related documentation in non-electronic form for wellness and health promotion activities;
- Coaching or education programs and health promotion activities designed to change member behavior (e.g., smoking, obesity).

Line 4.5 Health information technology (HIT) expenses related to improving health care quality

Report information technology expenses associated with the activities in Lines 4.1 through 4.4

expenses that are required to accomplish the activities allowed in 45 CFR §158.150.)

Include HIT expenses required to accomplish the activities reported in Lines 4.1 through 4.4 that are designed for use by health plans, health care providers, or enrollees for the electronic creation, maintenance, access, or exchange of health information as well as activities that are consistent with Medicare and/or Medicaid meaningful use requirements, and which may in whole or in part improve quality of care, or provide the technological infrastructure to enhance current quality improvement or make new quality improvement initiatives possible by doing one or more of the following:

Making incentive payments to health care providers for the adoption of certified electronic
☐ ☐ # # # ☐
such payments are not included in reimbursement for clinical services as defined in 45
CFR §158.140;

2. Implementing systems to track and verify the adoption and meaningful use of certified electronic health records technologies by health care providers, including those not eligible for Medicare and Medicaid incentive payments;
3. Providing technical assistance to support adoption and meaningful use of certified electronic health records technologies;
4. Monitoring, measuring, or reporting clinical effectiveness, including reporting and analysis of costs related to maintaining accreditation by nationally recognized accrediting organizations such as NCQA or URAC, or costs for public reporting of quality of care, including costs specifically required to make accurate determinations of defined measures (e.g., CAHPS surveys or chart review of HEDIS measures and costs for public reporting mandated or encouraged by law);
5. Advancing the ability of enrollees, providers, issuers or other systems to communicate patient centered clinical or medical information rapidly, accurately and efficiently to determine patient status, avoid harmful drug interactions or direct appropriate care this may include electronic health records accessible by enrollees and appropriate providers to

allocated internal salaries and related costs associated with network development and/or provider contracting.

Exclude:

Cost-containment expenses that improve the quality of health care and are reported in Part 1 Section 4.

Line 5.2 All other claims adjustment expenses:

Include any expenses for administrative services that do not constitute adjustments to premium revenue, reimbursement for clinical services to enrollees or expenditures on quality improvement activities or cost containment expenses.

This category can include such costs as:

- Estimating the amount of losses and disbursing loss payments;
- Maintaining records, general clerical and secretarial costs;
- Office maintenance, occupancy costs, utilities and computer maintenance;
- Supervisory and executive duties; and
- Supplies and postage.

Line 5.3 Direct sales salaries and benefits

Include compensation (including but not limited to salary and benefits) to employees engaged in soliciting and generating sales to policyholders for the issuer.

Line 5.4 Agents and brokers fees and commissions

All expenses incurred by the issuer payable to a licensed agent, broker, or producer who is not an employee of the issuer in relation to the sale and solicitation of policies for the company.

Line 5.5 Other taxes

Line 5.5a Taxes (other than Federal income taxes) and assessments not excluded from premium under 45 CFR §158.162(a)(2) and (b)(2). (Do not include amounts reported in Lines 3.1a, 3.1b, 3.2a, or 3.2b.)

Include:

- Taxes (other than Federal income taxes) and assessments not deducted from Premium in Section 3;
- State sales taxes if the issuer does not exercise the option of including such taxes with the cost of goods sold and services purchased;
- Any portion of commissions or allowances on reinsurance assumed that represent specific reimbursement of premium taxes;
- Any portion of commissions or allowances on reinsurance ceded that represents specific reimbursement of premium taxes;

Line 5.5b Report fines and penalties of regulatory authorities, and fees for examinations by any State or Federal departments other than those included in Line 3.3, above.

Line 5.6 Other general and administrative expenses

Include:

General and Administrative Expenses not previously reported in Part 1 sections 3, 4 or 5 above.

These expenses include such examples as:

- salaries,
- outsource services,
- EDP equipment, other equipment,
- accreditation and certification fees,
- reimbursement by uninsured plans and fiscal intermediaries,
- ICD-10 maintenance costs and implementation expenses in excess of 0.3% of earned premium,
- community benefit expenditures - report only the amount in excess of what is already reported in Part 1 line 3.2c;
- other additional expenses not included in another category such as rent, legal fees and expenses, medical examination expenses, inspection reports, professional consulting fees, travel, advertising, postage, utilities, etc.

Exclude:

- Any elements already reported on lines 5.1, 5.2, 5.3, 5.4 and 5.5;
- Services provided by affiliates under management agreements;
- Rating agencies and other similar organizations.

Line 5.8 ICD-10 Total Implementation expenses (informational only; already included in lines 4.6 and 5.6)

Section/Line 6 Income from fees on uninsured plans

Section 7 - Other indicators or information

Data reported should be allocated to each State and market (e.g., individual, small group, large group) in the same manner as premium.

Line 7.1 Number of policies/certificates

This is the number of individual policies (for individual business) or certificates issued to individuals covered under a group policy in force as of the last day of the reporting period. It is not the number of persons covered under individual policies or group certificates. Reasonable approximations are allowed when exact information is not available to the issuer for group business.

Line 7.2 Number of covered lives

This is the total number of lives insured, including dependents, under individual policies and under group certificates as of the last day of the reporting period. Reasonable approximations are allowed when exact information is not available to the issuer.

Line 7.3 Number of groups

This is the total number of employer groups insured as of the last day of the reporting period. This is NOT a count of the number of subscribers.

Line 7.4 Member months

The sum total number of lives insured on a pre-specified day of each month of the reporting period. Reasonable approximations are allowed when exact information is not available to the issuer.

Line 7.5 Number of life-years

Enter the number of member months divided by 12.

This is calculated by using the number entered on Part 1 Line 7.4 / 12

Section 8 Net investment income and other gain/(loss)

Enter the Grand Total as of 12/31 for ALL markets in columns 1 - 38

Section 9 Other Federal income taxes

Exclude: Taxes entered on Part 1 Line 3.1

INSTRUCTIONS FOR MLR ANNUAL REPORTING FORM - PART 2, Premium and Claims

The annual MLR Form Filing Instructions only apply to the 2012 MLR reporting year and its reporting requirements. These Filing Instructions will be revised to reflect changes that apply to the filing years subsequent to 2012.

In addition to the instructions below, the General Instructions and Column Definitions at the beginning of these Filing Instructions also apply to this Part 2. The General Instructions and Column Definitions include instructions regarding reporting of reinsurance, assumed and ceded insurance, deferred business, individual business through an association, employer business through a group trust or MEWA, group coverage in multiple states, and dual contract group health coverage.

Please note that the MLR Form and Filing Instructions implement the requirements of 45 CFR Part 158 and are not identical to the def ☐ ☐ ☐ ☐

Dual Contract Option: If an issuer has a group health plan which provides coverage for in-network coverage only and an affiliate issuer provides only out-of-network coverage solely for the purpose of providing a group health plan that offers both in-network and out-of-network benefits, the issuer may choose to treat the out-of-network experience of the affiliate that provides the out-of-network coverage as if it were related to the contract providing the in-network coverage. If an issuer *chooses* this method of aggregation, it must do so for a minimum of three consecutive reporting years and the affiliate that provides the out-of-network coverage must not report this experience. After an issuer applies this method for the initial three consecutive reporting years, the issuer may either continue to apply this method for any number of additional consecutive reporting years, or may choose to discontinue applying this method.

Section 1 Health Premiums Earned

Earned premium means all monies paid by a policyholder or subscriber as a condition of receiving coverage from the issuer, including any fees or other contributions associated with the health plan and reported on a direct basis.

Line 1.1 Direct premium written

12/31 Columns report amount as of 12/31 of the MLR reporting year, as reported to the
☐ # ☐ ☐ ☐ # ☐
for the MLR reporting year.

3/31 Columns (Direct premium written for coverage in MLR reporting year only) report premium collected through 3/31 of the year following the MLR reporting year for coverage in the MLR reporting year only, and uncollected (due and unpaid) premium for coverage in the MLR reporting year only as of 3/31 of the year following the MLR reporting year. Premium should reflect retroactive eligibility adjustments. However, for the 2012 MLR reporting year only, issuers may choose to report amounts on the same basis as in the 12/31 columns.

Include:

- Premium assumed under a 100% assumption reinsurance agreement (with a novation) must be reported by the assuming issuer for the entire MLR reporting year during which the policies are assumed and must not be reported by the ceding issuer;
- Premium assumed under a 100% indemnity reinsurance and administrative agreement, limited to only those agreements both entered into and also effective prior to March 23, 2010, where the assuming en ☐ ☐ ☐ # # risk and takes on all of the administration of the block of business.

Exclude:

- Premium ceded under a 100% assumption reinsurance agreement (with a novation) must be reported by the assuming issuer for the entire MLR reporting year during which the policies are assumed and must not be reported by the ceding issuer;
- Premium ceded under a 100% indemnity reinsurance and administrative agreement, limited to only those agreements both entered into and also effective prior to March 23, # ☐ ☐ ☐ # # risk and takes on all of the administration of the block of business;
- Assessments paid to or subsidies received from State and Federal high risk pools;
- Amounts for rate credits paid.

Line 1.2 - Unearned premium (year preceding the MLR reporting year)

Report reserves established to account for the portion of the premium paid prior to the MLR reporting year that was intended to provide coverage during the MLR reporting year.

12/31 Columns report reserves as of 12/31 of the year preceding the MLR reporting
☐ ☐ # ☐ # # ☐ ☐ ☐ as
filed on the NAIC SHCE filing for the year preceding the MLR reporting year.

3/31 Columns (Unearned premium for coverage in the MLR reporting year only) report premium for coverage in the MLR reporting year only, collected in the immediately preceding MLR reporting year. Report reserves as of 12/31 of the year preceding the MLR reporting year. However, if for the 2012 MLR reporting year the issuer chooses to report written premium on the same basis as in the 12/31 columns, the issuer should report unearned premium reserves consistently with how it reports written premium.

Line 1.3 - Unearned premium (MLR reporting year)

Report reserves established to account for the portion of the premium paid in the MLR reporting year that was intended to provide coverage during the following MLR reporting year.

12/31 Columns report reserves as of 12/31 of the MLR reporting year, as reported to
☐ # # ☐ ☐ # ☐
SHCE filing for the MLR reporting year.

3/31 Columns report zero (note that if collected and due and unpaid premium is reported correctly in Line 1.1 above, Line 1.1 should not include amounts that would constitute unearned premium for coverage in years subsequent to the MLR reporting

year). However, if for the 2012 MLR reporting year the issuer chooses to report written premium on the same basis as in the 12/31 columns, the issuer should report unearned premium reserves consistently with how it reports written premium.

Line 1.4 - Experience rating refunds paid

Experience rating refund is the return of a portion of premium pursuant to a retrospectively rated funding arrangement when the sum of incurred losses, retention and margin are less than earned premium. Include State premium refunds paid during the MLR reporting year, but exclude Federal and State MLR rebates.

1.4a - 12/31 Columns - report all refunds paid through 12/31 of the MLR reporting year.

1.4b - 3/31 Columns - report refunds associated only with claims incurred during the MLR reporting year and paid through 3/31 of the following year.

Line 1.5 Reserves for experience rating refunds (rate credits) (MLR reporting year)

12/31 Columns based on all refunds unpaid as of 12/31 of the MLR reporting year.

3/31 Columns based on refunds associated only with claims incurred in the MLR reporting year and unpaid through 3/31 of the following year.

Include:

Reserves for experience rating refunds, plus reserves for State premium refunds.

Exclude: Reserves for Federal and State MLR rebates.

Deduct: Amounts receivable under retrospectively rated funding arrangements.

Line 1.6 Reserves for experience rating refunds (rate credits) (year preceding the MLR reporting year)

12/31 Columns as of 12/31 of the year preceding the MLR reporting year.

Include:

Reserves for experience rating refunds, plus reserves for State premium refunds. Calculate reserves as of December 31 of the year preceding the MLR reporting year.

Exclude: Reserves for Federal and State MLR rebates.

Deduct: Amounts receivable under retrospectively rated funding arrangements.

Line 1.7 Premium write-offs

Include: ☐ ## ☐ ☐ # ☐ #
losses; recoveries made during the MLR reporting year on balances previously written;

- backs, coupons, grants, direct or indirect subsidies, direct or indirect remuneration, upfront payments, goods in kind or similar benefits received by the issuer;
- Payment from unsubsidized State programs designed to address distribution of health risks across issuers via charges to low risk issuers that are distributed to high risk issuers must be deducted from incurred claims.

Line 2.2 Direct claim liability (MLR reporting year)

2.2a - 12/31 Column liability based on all claims regardless of incurred date and unpaid as of 12/31 of the MLR reporting year

2.2b - 3/31 Column liability based on claims incurred during the MLR reporting year and unpaid as of 3/31 of the following year for those claims incurred during the MLR reporting year

For the 3/31 Column, calculate as of March 31 of the year following the MLR reporting year, based on claim payments made through March 31 of that year and report in the appropriate column.

Report the outstanding liabilities for healthcare services related to claims in the process of adjustment, incurred but not reported and amounts withheld from paid claims and capitation payments.

Include:

- Unpaid claims, including claims reported in the process of adjustment, percentage withholdings from payments made to contracted providers, recoverable for anticipated coordination of benefits (COB) and subrogation (including third party liability).
- Incurred but not reported - Report the claims incurred only during the MLR reporting year and not reported by 3/31 of the following year. Except where inapplicable, the reserve included in these lines should be based on past experience, modified to reflect current conditions, such as changes in exposure.

Line 2.3 Direct claim liability prior year (year preceding the MLR reporting year)

12/31 Column Amount reported to your state of domicile in the manner in which required, as of 12/31 of the year preceding the MLR reporting year.

Line 2.4 Direct claim reserves (MLR reporting year)

2.4a - 12/31 Column reserves based on experience regardless of the incurred date calculated as of 12/31 of the MLR reporting year

2.4b - 3/31 Column reserves based on experience incurred only in the MLR reporting year calculated as of 3/31 of the following year for those claims incurred during the MLR reporting year

For the 3/31 Column, calculate as of March 31 of the year following the MLR reporting year, based on claim payments made through March 31 of that year related to claims incurred for the MLR reporting year.

Report reserves related to healthcare services for present value of amounts not yet due on claims.

Line 2.5 Direct claim reserves prior year (year preceding the MLR reporting year)

12/31 Column Amount reported to your state of domicile in the manner in which required, as of 12/31 of the year preceding the MLR reporting year.

Line 2.6 Direct contract reserve (MLR reporting year)

Report the amount of reserves required when, due to the gross premium structure, the future benefits exceed the future net premium. Contract reserves are in addition to claim liabilities and claim reserves.

Include: Contract reserves and other claims related reserves.
Calculate as of December 31 of the MLR reporting year.

Exclude: Premium deficiency reserves.
Reserves for expected MLR rebates

2.6a - 12/31 Column reserves as of 12/31 of the MLR reporting year, as reported to the
☐ # ☐ ☐ # ☐ ☐ # reported on the
SHCE filed with the NAIC for the MLR reporting year.

2.6b - 3/31 Column For policies issued prior to 2011, contract reserves may only be used in the MLR calculation if such reserves were held prior to 2011, and may include reserves used for the purpose of leveling policy duration-based variation in claims experience only if durational contract reserves were held for such policies prior to 2011. Reported contract reserves may not exceed contract reserves calculated using the applicable product pricing assumptions. Calculate as of 12/31 of the MLR reporting year.

Line 2.7 Direct contract reserves prior year (year preceding the MLR reporting year)

See instructions for line 2.6.

12/31 Column Amount reported as of 12/31 of the year preceding the MLR reporting year.
Calculate reserves as of December 31 of the year preceding the MLR reporting year.

Line 2.8 Experience rating refunds (rate credits) paid

Experience rating refund is the return of a portion of premium pursuant to a retrospectively rated funding arrangement when the sum of incurred losses, retention and margin are less than earned premium. Include State premium refunds paid during the MLR reporting year, but exclude Federal and State MLR rebates.

2.8a 12/31 Column report all refunds paid through 12/31 of the MLR reporting year

2.8b 3/31 Column report refunds associated only with claims incurred during the MLR reporting year and paid through 3/31 of the following year.

Line 2.9

Line 2.12 Net healthcare receivables

12/31 Column receivables reported as of 12/31 of the MLR reporting year

3/31 Column receivables incurred during the MLR reporting year and that remain outstanding as of 3/31 of the following year

2.12a Healthcare receivables (MLR reporting year)

2.12b Healthcare receivables (prior reporting year)

Calculate as of December 31 of the year preceding the MLR reporting year.

The amounts on these lines are the gross healthcare receivable assets, not just the admitted portion. These amounts should not include those healthcare receivables, such as loans or advances to non-related party hospitals, established as prepaid assets that are not expensed until the related claims have been received from the provider.

Issuer must separately report this data element in the 3/31 column as provided in 45 CFR Part 158 and as noted within the instructions.

Include: The claims-related portion of reserves for contingent benefits and lawsuits.

Exclude: Reserves related to costs associated with claims lawsuits within Line 2.13; i.e. legal fees, court costs, pain and suffering damages, punitive damages, etc.

Line 2.14 Group conversion charges

If there are any group conversion charges for a health plan, the conversion charges must be subtracted from the incurred claims for the aggregation that includes the conversion policies and this same amount must be added to the incurred claims for the aggregation that provides coverage that is intended to be replaced by the conversion policies.

If an issuer transfers portions of earned premium associated with group conversion privileges between group and individual lines of business in its annual statement accounting, these amounts must be added to or subtracted from incurred claims.

Line 2.15 Blended rate adjustment

Affiliated issuers that offer group coverage at a blended rate *may choose* whether to make an

From the date an issuer *chooses* to use such an adjustment, it must be used for a minimum of three consecutive MLR reporting years. Affiliated issuers that choose to make such an adjustment must do so for all policies with blended rates in the applicable State market.

INSTRUCTIONS FOR MLR ANNUAL REPORTING FORM - PART 3, Expense Allocation Methodology

These annual MLR Form Filing Instructions only apply to the 2012 MLR reporting year and its reporting requirements. These Filing Instructions will be revised to reflect changes that apply to the filing years subsequent to 2012. Complete Part 3 only within the Grand Total page of the MLR report.

Description of Methods to Allocate Expenses

A single (not State-by-State) Part 3 of the Grand Total MLR Form must be submitted by the issuer to describe the methods used to allocate expenses, as reported on the MLR Form, including incurred claims, quality improvement expenses, Federal and State taxes and licensing or regulatory fees, and other non-claims costs, to each health insurance market (e.g., individual, small group, large group, mini-med plans, expatriate plans, government program plans, other health business, and uninsured plans, each as defined in the Column Definitions which follow the General Instructions at the beginning of these Filing Instructions) in each State.

A detailed description of each expense element must be provided, including how each specific expense meets the criteria for the type of expense in which it is categorized, as well as the method by which it was aggregated. (See instructions within Part 1 and Part 2 for descriptions of the various expense elements requested in Part 3 of the MLR Form.)

For a new initiative that otherwise meets the definition of quality improvement activities (QI) (see Filing Instructions for MLR Form, Part 1) but has not yet met the requirement that it be capable of being objectively measured and of producing verifiable results and achievements, note that it is ☐ ☐ and include the expected timeframe for the activity to meet this requirement.

Acceptable Bases for Allocation of Expenses

Allocation of each type of expense among health insurance markets should be based on a generally accepted accounting method that is expected to yield the most accurate results. If this is not feasible, the issuer should provide an explanation as to why it believes a more accurate result will be gained from its allocation of expenses, including pertinent factors or ratios, such as studies of employee activities, salary ratios or similar analyses.

Many entities operate within a group where personnel and facilities are shared. Shared expenses, including expenses under the terms of a management or administrative services contract, must be apportioned pro rata to the entities incurring the expense.

Any basis adopted to apportion expenses must be that which is expected to yield the most accurate results and may result from special studies of employee activities, salary ratios, premium ratios or similar analyses. Expenses that relate to a specific entity or sub-set of entities, such as personnel costs associated with the adjusting and paying of claims, must be borne solely by that specific entity or subset of entities and must not be apportioned to other entities within a group.

MLR filing of the respective reporting year.

Columns 1, 5, 9, 13, 17, 21, 25 & 29 **PY2** *(Not applicable to the 2012 MLR reporting year)*

Beginning in the 2013 MLR reporting year, report the information for the MLR reporting year that is 2 years prior to the MLR reporting year.

Columns 2, 6, 10, 14, 18 and 22 **PY1**

(Note: Columns 26 and 30 are labeled for expatriate experience, but for the 2012 MLR reporting year should be left blank.)

Beginning in the 2012 MLR reporting year, report the information for the MLR reporting year that is 1 year prior to the MLR reporting year.

In the 2012 MLR reporting year only, if the issuer is fully credible (as defined below in Part 4 Section 3), do not report the information for the 2011 MLR reporting year.

Columns 3, 7, 11, 15, 19 and 23 **CY**

(Note: Columns 27 and 31 are labeled for expatriate experience, but for the 2012 MLR reporting year should be left blank.)

Report the information for the MLR reporting year.

Columns 4, 8, 12, 16, 20 and 24 **Total**

(Note: Columns 28 and 32 are labeled for expatriate experience, but for the 2012 MLR reporting year should be left blank.)

For the 2012 MLR reporting year, for issuers with fewer than 75,000 life years in the applicable State market in 2012, the information for PY1 and CY for each market (e.g., individual market, small group market, etc.) should be added together for the Total (e.g. the issuer will aggregate two years of data). For issuers with 2012 life years greater than or equal to 75,000, the Total column will equal the CY column. The amount in the Total column will be

Part 4, Total column, Lines 1.2 + 1.3 + 1.4

Issuers with health insurance coverage in both the Massachusetts individual and small group markets who choose to merge their markets in accordance with Massachusetts law, should combine Part 4, Lines 1.2 + 1.3 + 1.4 for both markets, and enter this combined amount on Part 4 Line 1.5 in the Total Columns for both markets (Columns 4 and 8). Please note that MLR numerator and denominator are the only fields on the MLR Form where experience for the two markets should be combined.

Line 1.6 Mini-med /expatriate numerator after adjustment factor

For the 2012 MLR reporting year, expatriate columns should be left blank in Part 4.

For the 2012 MLR reporting year, the adjustment factor is 1.75 for mini-med plans.

Enter the results of the following calculations:

Mini-Med: $1.75 \times (\text{Part 4, Total column, Lines 1.2} + 1.3 + 1.4)$

(Note: Mini-Med issuers who are aggregating data should add the reported experience for each MLR year together and then apply the multiplier for the 2012 MLR reporting year (1.75) to the aggregated experience.)

Please note that MLR numerator and denominator are the only fields on the MLR Form where experience for the two markets may be combined.

Section 3 - Credibility Adjustment

(Not applicable to the Grand Totals page)

Line 3.1 Life years to determine credibility

PY2 - *(not applicable for 2012)*

PY1 - 2011 MLR Form, Part 1, Line 11.5, Columns 3/31 + Deferred PY1 Deferred CY

CY - Part 1, Line 7.5, Columns 3/31 + Deferred PY1 Deferred CY

Non-credible experience: Less than 1,000 life-years as reported in the Total Column for the relevant market. The issuer is presumed to meet or exceed the applicable MLR standard and does not receive a credibility adjustment.

Partially credible experience: At least 1,000 but fewer than 75,000 life-years as reported in the Total Column for the relevant market. Except as noted in the instructions for Line 3.5 below, the issuer receives a credibility adjustment which is calculated using the data reported in Lines 3.1 through 3.4 of this Part 4.

Fully credible experience: 75,000 or more life-years as reported in the Total Column for the relevant market. The issuer does not receive a credibility adjustment.

Line 3.2 Base credibility factor

The base credibility factor for partially credible experience is determined based on the number of life-years included in the aggregation and the factors shown below.

When the number of life-years used to determine credibility exactly matches a life-year category listed in Table 1 (found below and in the Tables tab of the MLR Form), the value associated with that number of life-years is the base credibility factor. The base credibility factor for a number of life-years between the values shown in Table 1 is determined by linear interpolation. **DO NOT ROUND.**

Table 1

| Life Years | Base credibility factor |
|------------|-------------------------|
| < 1,000 | No Credibility |
| 1,000 | 8.3% |
| 2,500 | 5.2% |
| 5,000 | 3.7% |
| 10,000 | 2.6% |
| 25,000 | 1.6% |
| 50,000 | 1.2% |
| >= 75,000 | 0.0% (Full Credibility) |

Enter the amount calculated using linear interpolation and the values shown in Table 1. Issuers with non-credible or fully credible experience do not have a base credibility factor, and should enter zero.

Line 3.3 Average deductible

☐ ☐ # ☐ # ☐ # ☐ #
dependents shall be calculated as follows:

The lesser of the deductible applicable to each of the individual family members or the overall family deductible for the subs ☐ # ☐ # ☐ (regardless of the total number of individuals covered through the subscriber).

Issuers who choose to use a deductible factor of 1.0 may leave this field blank.

Issuers with non-credible or fully credible experience do not need to report an average deductible.

Issuers offering products with differing deductibles should use a weighted average based upon life years for each deductible level of policies included in the aggregation.

Issuers with between 0 and 75,000 life years in the applicable State market in 2012 should first calculate an average deductible using life years and per-person deductible levels for policies in force in 2012. Issuers should then determine a two-year average deductible based on the weighted average of the average deductible for the 2011 MLR reporting year and the average deductible for the 2012 MLR reporting year.

Enter the average deductible calculated based on the explanation above.

Line 3.4 Deductible factor

This amount is calculated based upon the average deductible reported in the Total Column for Line 3.3. The deductible factor ranges from 1.0 to 1.736 and is shown in Table 2 below and in the Tables tab of the MLR Form. When the average deductible used to determine the deductible factor exactly matches a deductible level listed in Table 2, the deductible factor associated with that average deductible level is the factor in Table 2. The deductible factor for a deductible level between the values shown in Table 2 is determined by linear interpolation (do not round).

| Health plan deductible | Deductible Factor |
|------------------------|-------------------|
| < \$2,500 | 1.000 |
| \$2,500 | 1.164 |
| \$5,000 | 1.402 |
| >= \$10,000 | 1.736 |

Enter the amount from the table corresponding with the average deductible. Issuers with non-credible or fully credible experience do not have a deductible factor and can enter a value of 1.0.

Line 3.5 Credibility adjustment

Enter the result of the following calculation:
Part 4, Lines 3.2 x 3.4 (DO NOT ROUND)

Issuers with non-credible or fully credible experience do not receive a credibility adjustment and should enter zero.

Section 5 - MLR Rebate Calculation

(For Current Year only)

Issuers with non-credible experience should leave Lines 5.1 – 5.3 blank and enter zero on Line 5.4.

Line 5.1 Enter the applicable MLR Standard as noted below: *(Not applicable to the Grand Total page)*

The applicable MLR standard is based on one of the following:

- The statutory MLR standard for the relevant market (i.e., 80% for the individual market and small group market; and 85% for the large group market); or
- The HHS-approved # # # ☐ # # # # # #
or
- The State MLR standard, if the State requires a higher percentage than the statutory MLR standard for the relevant market for rebate purposes.
- If an issuer thinks a state MLR standard does not apply to its MLR and rebate requirements under federal law, please contact CCIIO at MLRQuestions@cms.hhs.gov.

Additional definitions:

- **Policyholder** means any entity that has entered into a contract with an issuer to receive health insurance coverage.
- **Subscriber** refers to both the group market and the individual market. In the group market, subscriber means the individual, generally the employee, whose eligibility is the basis for the enrollment in the group health plan and who is responsible for the payment of premiums. In the individual market, subscriber means the individual who purchases an individual policy and who is responsible for the payment of premiums.
