2021 Doctors and Clinicians Public Reporting

Overview

This document summarizes the group and virtual group[1] performance information and plain language measure and activity titles[2] that are publicly reported on Medicare Care Compare and in the Provider Data Catalog (PDC). The Centers for Medicare & Medicaid Services (CMS) is publicly reporting 2021 Quality Payment Program (QPP) group performance information. Performance information that meets statistical public reporting standards (valid, reliable, comparable, and meets the minimum reliability threshold) is included in the PDC.[3,4] A subset of this information is added to Care Compare profile pages. Any information publicly reported on profile pages must also resonate with patients and caregivers, as shown through user testing.
