Information to Know

The HIOS MLR module will begin accepting data on Excel templates (MLR Annual Reporting Form) beginning July 1, 2022. Users will be able to download the blank MLR templates in advance of that date.

The 2021 MLR Form and Instructions have not yet been approved by the Office of Management and Budget (OMB). The Form is therefore subject to change. An issuer who uses the Form published in HIOS' MLR module in June 2022 will be deemed in compliance with the requirement to file its MLR data on a form prescribed by the Secretary even if that form differs from what is ultimately approved.

The MLR Reporting Process – Step 2

The MLR reporting process involves the following steps:

Step 1 – Access the HIOS MLR module.

Step 2 – Confirm company-issuer association and disassociation.

Step 3 – Download MLR templates.

Step 4 – Populate MLR templates.

Step 5 – Upload completed MLR templates.

Step 6 – Upload supplemental materials.

Step 7 – Attest to accuracy of uploaded MLR data and supplemental materials.

Step 8 – View Data

Purpose of Confirming Company-Issuer Associations

- The Company is the parent company, and where there is a holding company system, the associated issuers are each issuer that is part of the holding company. And each issuer, once associated, indicates the state(s) in which it has health insurance coverage subject to MLR reporting.
- Every company will need to confirm the list of its associated issuers to report MLR data for the reporting year (i.e., for which States it will be reporting).
- HIOS will utilize the list of confirmed issuers to generate an MLR template for each issuer, with the pre-populated company and issuer information (e.g., *Company Name, HIOS ID, FEIN, etc.*).
- The list is also be used to verify the appropriate amount of MLR templates have been submitted.
- Uploader users are not able to download the pre-populated MLR templates until issuer associations are confirmed.
