Aims & Scope

Current Cancer Therapy Reviews publishes full-length review/mini-reviews, original research articles, drug clinical trial studies and guest-edited thematic issues on all the latest advances in clinical oncology, cancer therapy and pharmacology. The journal aims to publish the highest quality review articles dedicated to clinical research in the field. The journal is essential reading for all researchers and clinicians in the field of cancer therapy. It covers papers related to prevention, diagnosis and treatment of all types of cancers through biomarkers testing, biopsy, chemotherapy, hormone therapy, gene therapy, hyperthermia, immunotherapy, irreversible electroporation, laser therapy, photodynamic therapy, radiation therapy, radiotherapy and stem cell transplantation.
