This report is issued on an annual basis to Members and Observers of the Intergovernmental Group on Citrus Fruit.

It is prepared by the Market and Policy Analysis of Raw Materials, Horticulture and Tropical (RAMHOT) Products Team, Markets and Trade Division, FAO, Rome, and the tables contained in this document bring together governments' replies to the Group's latest questionnaires, supplemented by other data available.

The RAMHOT Products Team provides economic data and analysis on major agricultural raw materials, horticultural and tropical products. Commodities covered under the Team include, **citrus fruits; cotton; hard fibres (abaca, coir and sisal); jute; kenaf and allied fibres; sugar; coffee; cocoa and tea.**

The Team also undertakes market reviews, outlook appraisals and projections, and provides assistance to developing countries in designing and implementing national policies for those agricultural commodities which enter into international trade.
